Assessment protocol and key

Care, boundaries and help: assessing lesson

Year A · Identity & Belonging · 14–18 December 2026 · 40 minutes

Assess familiar learning through fictional tasks. Keep the word mat and earlier answers closed during initial checks. Read exactly and scribe without correction. Record the supplied word bank as a task condition; record additional answer cues, reduced options, models or reasons as content support. A pause or unobserved task is not a wrong answer.

Check	Expected evidence
A · Care	Waiting while the person uses an aid shows care. Accept listening, giving time or letting them finish, with a relevant reason. Do not infer care solely from an adult role or face.
Taught words	A–4: penis. B–2: scrotum. C–3: testicles. D–1: vulva. Record each first match, the word bank and any extra prompt. These terms and definitions were supplied in Week 3. This is a matching check, not unprompted recall or a full anatomy assessment.
B · Privacy	The act respects privacy. Wait outside for a reply and permission; do not assume permission to enter. A young person can still seek help about a private worry.
C · Permission	Respect no: leave the pen alone and find another option. Do not press for yes or demand a reason. Accept a story-based explanation.
D · Help request	Choose the tutor and communicate the bag worry plus a request for help. Example guide: the young person needs help because a peer keeps moving their bag; could the adult help stop it? Accept an aid, sign, note, point or equivalent request.
E · Follow-up	Choose the duty adult, explain the same unresolved worry and ask for help. Another established trusted-adult route is valid if justified and recorded. The young person need not confront the peer first.

Taught-word substitution note

Before the lesson, check the Week 3 record. Use only terms actually taught. If a planned term or visual was not taught or is not suitable, use an already-taught neutral body term or omit that item under the agreed teaching plan. Record the exact substitute, prior teaching reference, reason and response. Never mark the original term as achieved from a substitute. Mark it not assessed and plan follow-up separately. Do not add new vocabulary in this assessment. No body image or personal comparison is required here.

Half-term evidence audit

Learner code _____ Review date _____ Staff role _____

Record actual work references and dates, individual responses and help. Mark present, partial, missing or not observed. Do not backdate new work or infer learning from attendance. All evidence concerns fictional cases.

Week and focus	Work code, date, help and status
1 · Caring action and support map	_____ _____
2 · Comfort or discomfort; help or pause	_____ _____
3 · Taught body words and privacy decisions	_____ _____
4 · Permission request and boundary responses	_____ _____
5 · Caring, unkind or pressuring acts; helpful step	_____ _____
6 · Help request, route and follow-up	_____ _____

Strongest supported claim and work reference

_____

Gap and planned dated check

_____

Safe assessment

All prompts are about fictional young people. Never ask about a learner's own body, family or experiences. No touching, personal role-play or real-life comparison is required. An adult may narrate the fictional parts while the learner chooses or explains. Respect a pass, pause or aid without asking why. If a real concern arises, listen calmly and follow the setting's safeguarding procedure promptly. Do not promise secrecy or use a disclosure as lesson evidence. Safety is the adult's responsibility; a child is never to blame for another person's harmful act.

Individual assessment review

Learner code _____ Review date _____ Staff role _____

For each criterion use: shown on this task without extra content prompt; shown with content support; not yet shown; or not observed/not assessed. Record access support separately. Keep omitted terms and incomplete criteria clear. No total score or qualification result is inferred.

Criterion	Initial judgement and evidence reference
Care action with relevant reason	_____
Taught-word matches: each term recorded	_____
Privacy decision and next action	_____
Permission response and story reason	_____
Request: adult, worry and help sought	_____
Follow-up adult and request	_____

After feedback: keep this separate

Record	Actual response and reference
Specific feedback point	_____
Later reply or changed choice	_____
Help given after feedback	_____
Next step, help and review date	_____

A corrected reply after feedback does not replace the initial record or become independent first performance. Retain both. If time or support prevents an individual response, record the gap and arrange a dated check.

Use VF · WS · I · NS+ (Yellow Box) · // self-edit · ? read back · R responded · E evidence. R requires Voice, Audience, a specific NS+ prompt and the learner response in their own colour. E is recorded only when actual work is banked. Keep the initial record unchanged; record feedback and the later response separately.

Work storage code _____ Banked / part / not yet _____
Unfinished evidence _____ Next check date _____

This helps me show how I can respect others, protect my boundaries and ask for support.
