My risk and control card

Use your book, usual aid or Type instead. Choose scene B or C. These scenes are invented; do not act out the hazard.

Short card
1 Scene and hazard: what could cause harm, and where? 2 Who could be harmed and how? 3 One control and who arranges it. 4 Who I would tell and my message. 5 What I do while waiting. 6 How it is checked, or one fact still unknown.

Hazard risk and control
A hazard can cause harm. Risk considers how likely harm is and how serious it could be. A control reduces risk. You do not need a number or a real workplace inspection.

Report frame
“There is ... at ... . Someone could ... . I am keeping clear. Please check it and arrange ... .” Tell the supervisor, played by an adult. Use your voice, aid, writing or a selected message.

Keep the record true
Use the picture facts. Do not invent that a spill was cleaned or a route checked. Say what needs to happen and who should arrange it. Keep your first try, one NS and your reply.

Private help
Ask a trusted adult or use the school’s help route. You may pass, pause and return. No personal accident story is needed.

Type instead

Blank short card for any tier. Choose B spill or C stack; no names.

Prompt	Type here
Work reference date tier and scene	
Hazard and where it is	
Who could be harmed and how	
One control and who arranges it	
Who I would tell and my report	
What I do while waiting	
How it is checked or still unknown	
One next step and my reply	

Save through the usual route with lesson code/work reference and share privately. Book, aid or exact scribe also valid; read back and correct.
