## A short work shift

Friday 22 January 2027 · P1 · 40 minutes · Year A

Careers · LAUNCH · a pair of learners · Spring 1 Week 3 · formative

Theme: Resilience & Change. Six-week term, 4 January–12 February; Week 6 assessing. Thread tags: SMSC So/M (S/C none); British Values MR/IL (D/RL/T none).

## Exact weekly outcome

Experiencing work: placement/simulation.

Source: LAUNCH Weekly - Spring row 90, B90 Spr1·W3 and C90 exact. Inherited framework/resource context from row 88 generic; no registration or award completion inferred.

## Success checks

Take part in the agreed work task through an accessible role. Keep a truthful progress record and handover. Reflect briefly on what went well and what was hard/unclear, self-assess five Week 1 expectations and choose a next step.

## Same invented workplace

An invented small business prepares simple paper packs for customers. It has a supervisor, a preparer and a checker. It has no name, real employer, location or contact details. This is classroom simulation only.

Keep the Week 1 two-pack order and supervisor/preparer/checker roles. Week 2 learning applies: keep the area clear, pause and report a concern. No real customer, money, data, employer or place.

## Prepare

Two large ready-cut cards and two strips per pair, plus spares; written order, task cards, timed list, tier packs, vocabulary, books or blank typed reflection and usual aids. Reset/reuse paper for round two; do not report reused materials as commercial output. Adult may take the partner role. Confirm private help and pause/return.

## Placement alternative

A real placement arranged by the school replaces the classroom simulation. Use the same reflection sheet unchanged. School confirms tasks, supervision, access and actual timing separately; the twelve-minute classroom list is not a real-placement schedule. Record actual date, mode, task and evidence. If activity has not happened, mark pending and do not invent experience.

## Where this leads

This helps me complete an agreed work routine, hand over accurately and use evidence to plan an improvement.

# Forty minute sequence

| Phase | Min | Teaching |
|---|---|---|
| Arrival and retrieval | 5 | Recall expectations and safe reporting; confirm access and mode. |
| I Do | 8 | Model four stages, honest progress recording and handover. |
| We Do | 10 | Rehearse sequence, timed-list meaning and five expectations; private hinge. |
| You Do | 12 | Classroom shift: set up 2, make/check 4, record 3, hand over 3. |
| Review and exit | 5 | Short reflection, five self-ratings, private feedback/reply and save. |

5 + 8 + 10 + 12 + 5 = 40 minutes. Source row 90 gives no minute sequence; these phases are authored. Processing and brief pauses included. Simulation timings guide the routine, not speed or worth.

## Arrival and I Do

0–5: retrieve one Week 1 expectation and Week 2 keep-clear/report response. Confirm simulation or school-arranged placement mode. 5–9: explain set up, make/check, record and hand over. 9–13: model one checked pack and one still needing a check; record both honestly. Model handover: “One is ready; the other needs checking. Please check it before calling the order complete.” This is an invented example, not learner evidence.

## We Do

13–19: order the four cards and rehearse a role agreement and handover with the written order visible. Read the relative shift clock: 0–2, 2–6, 6–9, 9–12. Preview the five self-rating labels; do not prefill judgements. 19–23: hinge B, report partial progress rather than call unfinished work complete. Parallel A, ask about an unclear next step rather than guess. Re-model and recheck privately.

## You Do

23–25 set up: order, materials, access and roles. 25–29 make/check: two brief rounds with reset and swap, so each can try preparer and checker. 29–32 record: actual role and progress, known counts, unfinished checks, help and a brief evidence clue. 32–35 hand over: each learner gives a short update to adult/partner. Reduce repeats or quantity for access; record what happened, never manufacture completion. Keep a stable work area at the transition.

## Review and exit

35–38: each gives one short what-went-well statement and one hard/not-tried/unclear statement, then rates the five expectations. Pointing or a scribed selection is valid. “Nothing was hard today” is valid; do not invent a difficulty. 38–40: privately check one evidence clue, set one NS and keep the reply/next check time; save individual record. Missing evidence stays visible.

# Tiers and access

## Supported

Keep four numbered task cards, a short checklist, model and sentence starts. Read one step at a time; use usual aid, pointing, voice, typing or exact scribe. Adult can partner. Make your own brief log/reflection and five honest self-ratings.

## Standard

Use the task cards and timed list to agree roles, make/check, record actual progress and hand over. Give one example of what went well and what was hard or unclear. Rate all five expectations and choose a next step. Keep normal aids.

## Stretch

Compare the plan with actual progress and explain an adjustment that helped. Give a precise handover of unfinished checks and evaluate a limit of this short shift. Use the same individual reflection and five expectations; extra writing optional.

## Model check and fade

After the model ask whether both packs were checked. Key: only one. The other must be handed over as needing a check. Keep task/order/model in view; fade answer cues only. A normal reading/communication aid is access, not automatically a content prompt.

## Timed list and roles

The shift list is a twelve-minute classroom guide: 2 + 4 + 3 + 3. Pause or reduce repetitions when needed. If a task is unfinished, record and hand it over honestly. Do not race, remove a normal aid, or penalise a support need. An adult can partner; no forced peer performance. Role swap is planned, not fabricated if not attempted.

## Adaptations and prompt ladder

Cognition and Learning: numbered cards, short checklist, one step and reduced quantity. Communication and Interaction: rehearsal, wait time, written order, usual aid and exact scribe/readback. SEMH: predictable routine, private review, pass and pause/return. Sensory and Physical: clear accessible table, seated roles and large print. EAL: plan in any language. 1 Point to place/instruction; 2 ask a short question; 3 rephrase; 4 scaffold/choice; 5 model first step only then return task.

## Private help route

Trusted adult or school help route. Point to HELP, write or ask privately. If one adult is busy, use the route to another. Pass, pause and supported return available. No personal employment, family or accident account requested.

# Evidence and staff guidance

## Reflection sheet in both modes

Evidence Sheet pages 1–3 use neutral activity fields and the same five expectations. Use unchanged for simulation or school-arranged real placement; actual task/date can differ from the lesson. Page 2 blank typed work/reflection log; page 3 blank five-expectation review; page 4 staff record. Do not add an employer/place name. Book/usual aid default.

## Evidence and judgement

Keep actual task/role/progress and handover, a short what-went-well and hard/unclear reflection, five self-ratings, one actual example and next step/reply. Ratings exactly as Week 1: I did this; I did this with a prompt; I need another try; Not seen today. Normal access distinct from supplied thinking. Missing role or opportunity is Not seen today. Judge reflection from evidence, not personality, pace or a real employment history.

## Feedback and portfolio

VF, WS, I, NS, //, ?, E and R generic codes. E actual banked work. R after Voice, Audience, NS and reply in the same colour, on the same page or usual mode. One NS might add the unfinished check to a handover. Retain first try and response. Offer to Communication portfolio; staff confirm any accredited mapping. A simulation does not prove real placement attendance or workplace competence.

## Safe delivery

Ready-cut paper only. No tools, machines, money, food, live customers, personal data or deliveries. Stop/keep clear/report if a real concern appears; follow actual school procedures. No staged hazard or cleanup activity. Real placement arrangements and approved tasks belong to the school; these cards do not replace induction or supervision.

## Scope

Only Week 3 authored. W4 following instructions/teamwork, W5 customer service, W6 reflection/assessing follow one per return. Same invented business. Further GROW Careers paused. Listen calmly to concerns, avoid probing or secrecy promises and follow usual procedures; keep concerns outside shared evidence.
