Staff answers

Task guides only. These are not observations of learners.

Exact weekly outcome
Workplace expectations & behaviours.

A An unclear step
Primary expectation: Instructions and quality. Pause and ask the supervisor to explain the step. Read it back before continuing. A checked instruction reduces avoidable mistakes.

B Different ideas
Primary expectation: Teamwork and responsibility. Agree who prepares and who checks, then swap on the next round. Clear roles give both workers a way to contribute.

C A blocked route
Primary expectation: Safety and help. Stop using that route and tell the supervisor. Follow the agreed way to make it safe. Reporting a hazard protects access and safety. Do not create a real obstacle for this task.

More than one link
Accept another expectation where the learner explains it from the facts. A clarification request can show respectful communication as well as instruction checking. Do not require a single memorised label.

Responses and simulation checks

D One item missing

Primary expectation: Instructions and quality. Say what is missing, add the strip using the order and check both packs again. Honest checking helps improve quality; a mistake can be corrected.

E A changed start

Primary expectation: Readiness and reliability. Tell the supervisor what help is needed and agree a supported start. Readiness includes communicating a support need, not hiding it.

F A rushed reply

Primary expectation: Respectful communication. Pause and ask respectfully which part needs checking. A written or aided reply is valid. Respectful clarification helps people understand each other.

Order check

Correct finished order: two packs, each with one large card and one paper strip; both checked against the order and ready status communicated. Learners may keep the order in view. Reset and swap roles. Adult can partner for private access. Do not judge speed or manufacture a real hazard.

Keys and recheck

Model: checked meaning. Main hinge B: pause and ask. Parallel A: report missing strip, correct and recheck. Re-model one step if unclear; recheck privately. Pass is unobserved.

Assessment access and continuity

Five expectation self-assessment

Keep all five self-ratings, at least one actual example and one next step with help/time. A missing opportunity is Not seen today. There is no required “best” rating and no personality score. Normal communication/reading aids are access, not automatically an answer prompt. Record supplied thinking separately. Compare a rating with an actual clue privately; retain any changed judgement.

Tier guidance

Supported: choices, word bank, frames and checklist. Standard: four cases and two explained responses. Stretch: competing pressures, a justified response and adjustment. Each completes the same order and self-assessment. Route names Supported/Standard/Stretch follow this brief. No forced public speaking or personal account.

Feedback and help

One NS and reply; R after Voice, Audience, NS and response in the same colour, on the same page or usual mode. E only actual saved work. Private help through trusted adult or school route; pass, pause and return. Listen calmly, avoid probing or secrecy promises and follow usual procedures. Offer to Communication portfolio; staff confirm mapping.

Source and half term

C88 exact, B88 Spr1·W1. Identifying framework/resource names in A88/D88–F88 rendered generically. W1 formative reviews; later evidence mapping confirmed by staff. W2 safety, W3 experiencing work, W4 instructions/teamwork, W5 customer service, W6 reflection/assessing. Same invented business; later tasks not authored. No real placement, employer or awarding body claimed.
