Stretch workplace pack

Workplace expectations & behaviours.

Our paper-pack business is invented. Use Support Cards for the order, roles, five expectations and scenarios. Book or usual aid first. This pack is a reusable reference.

Your task

Compare competing pressures in D/E and justify a response that protects quality and access. Suggest a practical adjustment, try the same order and evaluate how it helped. Use the same five-row self-assessment; more writing is optional.

Competing pressures

In D, speed and quality pull in different directions. In E, a worker needs help before starting. Explain why checking or asking for support is a responsible response. Propose one adjustment such as a read-through or short checklist; explain how it preserves the task goal.

During the order

Agree roles and an adjustment. Try the order, then reset and swap. Use one observation to judge whether the adjustment helped. Identify a limit: one short simulation cannot prove the habit happens in every workplace.

Challenge frame

“I would prioritise ... because ... . The adjustment would help by ... . I would check whether it worked by ... .”

Access

Use normal aid, reading help, typing or exact scribe. Adult can be your partner. Ask for private help; pass, pause and return. No personal work story is required.

Stretch self assessment

Review today’s simulation. In your book or Type instead, give one rating for each expectation.

Expectation	Evidence prompt
Readiness and reliability	I checked the task and materials or asked for help to get ready.
Respectful communication	I listened or read and used a clear question or reply.
Instructions and quality	I checked a step or the finished packs against the order.
Safety and help	I kept the area clear or asked before doing an unclear task.
Teamwork and responsibility	I agreed a role, shared a useful update or reported a mistake.

Choose honestly
I did this; I did this with a prompt; I need another try; Not seen today. Keep the actual clue. Normal aids help access; note prompts that supplied the thinking. There is no total score.

Next step and response
Choose one action you can practise, with help and a check time. Show an adult privately. Keep the first try, one NS and your reply. Example: “Next round I will check both packs against the order.” This example is not your evidence.

Private help
A trusted adult or the school’s help route. Point to HELP, pass or pause if needed.
