# Staff answers

Task guides and invented examples, not learner observations.

## Exact weekly outcome

Experiencing work: placement/simulation.

## Order and stages

Sequence: set up, make/check, record, hand over. Each pack has one large card beside one paper strip; two packs per round. Preparer arranges, checker compares both with the written order; reset and swap where possible. Record the actual role/count/check, not a claim all planned work happened.

## Model and keys

Model has only one checked pack; other check unfinished. Handover must name that remaining check. Main B: record partial progress and hand it over honestly. Parallel A: pause and ask about an unclear next step. Re-model if needed, then recheck privately. Pass is unobserved.

## Useful records and handovers

Valid: “I prepared two packs in round one. I checked the next round with the order. One still needed checking at handover.” Only valid if observed/confirmed from actual work. Also valid: shorter partial record explaining what remains. Model numbers do not become learner evidence. Do not require full output to receive formative feedback.

## Timing

Classroom windows 0–2, 2–6, 6–9, 9–12, durations 2/4/3/3. Total 12, lesson 23–35. Times guide routine; pause/reduce repeated work for access. A real placement uses school-arranged timing, not this shift clock.

# Reflection and expectations

## What went well and what was hard

Accept a concrete work example, a support that helped, an unclear or not-tried step, or an honest “nothing hard today”. Avoid a forced personal account. Help turn “good” into one observable clue, such as checking against the order. A next step can be a small practice, clarification or more support.

## Five Week 1 labels

| Expectation | Possible evidence |
|---|---|
| Readiness and reliability | I checked the task and materials or asked for help to get ready. |
| Respectful communication | I listened or read and used a clear question or reply. |
| Instructions and quality | I checked a step or finished work against the instruction. |
| Safety and help | I kept the area clear or asked before doing an unclear task. |
| Teamwork and responsibility | I agreed a role, shared a useful update or reported a mistake. |

Labels and four rating statements retained exactly from Week 1. A normal reading/communication aid is access; log content prompts separately. If self-rating differs from observation, ask privately for the clue and retain any revision. Not seen today is valid for an unattempted role or missing opportunity. No total score or personality judgement.

## Evidence goal

Individual actual task/progress/handover, short well/hard reflection, five ratings, one example and next step/reply. Do not count another learner’s work or adult model as independent evidence.

# Placement access and portfolio

## Same sheet in both modes

A real placement arranged by the school replaces the classroom simulation. Use the same reflection sheet unchanged. School confirms tasks, supervision, access and actual timing separately; the twelve-minute classroom list is not a real-placement schedule. Record actual date, mode, task and evidence. If activity has not happened, mark pending and do not invent experience.

All reflection fields are activity-neutral; no paper-pack order or fixed shift duration is printed as a requirement on the reflection pages. Actual activity date/mode/task/role and evidence are recorded. Pending means unobserved; do not invent attendance, tasks or feelings.

## Access

Supported model/cards/frames; Standard actual routine and linked reflection; Stretch plan-versus-progress and adjustment. Every tier retains usual aids, exact scribe/readback, adult partner, private turn and plan in any language. Pass/pause/return. No public questioning or personal employment story.

## Safety and feedback

Ready-cut paper only, no tools/equipment, money/data or real customers. Keep clear/report actual concerns and follow school procedures. Real placements have school-arranged approved tasks/supervision. E actual saved evidence; R after Voice, Audience, NS and reply in usual mode. Offer to Communication portfolio; staff confirm any mapping. No workplace competence or real-placement claim from simulation.

## Source and queue

B90/C90 exact. Friday 22 January 2027 P1, pair, forty minutes formative. W4 instructions/teamwork, W5 customer service, W6 reflection/assessing next, one per return. Same invented business. Only Week 3 authored; further GROW Careers paused.
