Stretch work experience reflection pack

Work-experience reflection.

Assessing week. Use actual half-term work or a real placement record only if it happened. Keep actual date, mode, task, role and reference. No real employer, person or place names. Book/usual aid or Type instead.

Your task
Compare two actual pieces of evidence or points in your work. Explain what changed, what helped and a limit of your evidence. Use this to justify one future adjustment. Complete the same four reflection parts and five self-ratings; extra writing optional.

What I did
What task or role did I actually try? What work shows it?

What I learned
What did I learn from doing or checking the task?

What I would do differently
What would I change next time, and what help would be useful?

Which expectations I met
Which expectation fits my evidence? Keep any gap visible.

Compare evidence carefully
Use two actual items or points where possible. Explain what changed and what helped, while naming a limit of what the evidence proves. If only one item is available, say that and agree further evidence rather than inventing a second.

If work is missing
Mark not yet completed or unobserved and ask for a supported follow-up. Do not copy a model as your own experience or claim a real placement from classroom work. No new practical task is required.

Stretch expectation review and next step

Use your own actual work for the five Week 1 expectations. A missing opportunity stays Not seen today. The teacher’s six-outcome review is separate.

Week 1 expectation	A clue to review
Readiness and reliability	I checked the task and materials or asked for help to get ready.
Respectful communication	I listened or read and used a clear question or reply.
Instructions and quality	I checked a step or finished work against the instruction.
Safety and help	I kept the area clear or asked before doing an unclear task.
Teamwork and responsibility	I agreed a role, shared a useful update or reported a mistake.

Your own ratings

I did this; I did this with a prompt; I need another try; Not seen today. All five rating fields begin blank on the Evidence Sheet. Choose your own rating and actual clue. Normal aids are access; record prompts that supplied thinking separately.

One next step

Keep first try, one NS and your reply. Agree useful help and when to review the step. Keep an honest gap visible. Staff record the six weekly outcomes separately from actual work; no one must invent a success or failure.

Private help

Trusted adult or school help route. Voice, aid, writing, typing or exact scribe valid; read back and correct. Pass, pause and return with support. Plan in any language. No personal work history or public presentation needed.
