Card 1 Model and guided work

All people are invented. The younger pupil is made up. There is no real visit, contact, account or photo. Use your usual aids. You may pass or use the agreed supported pause.

Story A

An invented younger learner starts two familiar tasks in a new order. Their card model falls down. They feel cross and think they cannot do it. They would like a clear first step. Later they draft a photo of the model. A note in view shows private routine details. Another learner is in the photo and has not agreed to share it. A reply causes concern. No wording is shown. These are made-up scenes for this task.

Visible model

The younger learner could feel cross after the model falls. They could try one smaller step and ask school staff, Can you show me the first step? A safe pause or a familiar gentle move may help. If one step does not help, they can ask for another way. Before sharing, leave out private details and ask before including someone else. Use kind words. A private setting may limit the audience, but someone may copy the post. Stop replying to a concerning message and ask a trusted adult for help to report or block it. Do not send it on.

Two guided choices

Match a step to the plan or guide. Or improve Keep trying alone and send the photo now. Both products need safe help.

Starter

Words: feeling, step, help

Start: The learner could…

Model: Ask for one clear first step.

Model

Words: plan, adapt, safe

Start: If the task feels hard…

Model: Try a smaller step with help.

Private hinge

Words: both, plan, guide

Start: Both products show…

Model: The plan shows support. The guide shows safe sharing.

Card 2 Plan map and guide panels

Shared story

An invented younger learner starts two familiar tasks in a new order. Their card model falls down. They feel cross and think they cannot do it. They would like a clear first step. Later they draft a photo of the model. A note in view shows private routine details. Another learner is in the photo and has not agreed to share it. A reply causes concern. No wording is shown. These are made-up scenes for this task.

Your two products

In your book make a resilience plan as a map or list. Then make an online safety guide as short panels. Plain text is fine. Use Type instead if you choose. Both products are for the same invented younger pupil.

Product 1 Resilience plan

Name a possible feeling or pressure clue in the story. Choose a safe strategy or smaller step. Explain why it fits. Add a support type, an opener and what to do if more help is needed.

Product 2 Online safety guide

Tell the younger pupil how to keep details private, ask before sharing another person and use kind words. Explain a footprint or copy limit. Give a safe stop and tell route with adult report or block help. Do not forward private or harmful content.

Resilience plan

Words: feeling, pause, ask

Start: They could… because…

Model: They could ask staff to show the first step.

Online safety guide

Words: private, copy, kind, report

Start: Before sharing…

Model: Leave private details out. Ask before sharing someone else.

Think about B

What may the learner feel? Which small step or support could fit? What should stay out of a photo? What can be copied? What can they do and who can help if a message causes concern?

Card 3 Plan note and guide text

Shared story

An invented younger learner starts two familiar tasks in a new order. Their card model falls down. They feel cross and think they cannot do it. They would like a clear first step. Later they draft a photo of the model. A note in view shows private routine details. Another learner is in the photo and has not agreed to share it. A reply causes concern. No wording is shown. These are made-up scenes for this task.

Your two products

In your book make a short resilience plan note. Then make an online safety guide in short text. Use Type instead if you choose. Both products are for the same invented younger pupil. You may switch to map and panels B.

Product 1 Resilience plan

Name a possible feeling or pressure clue in the story. Choose a safe strategy or smaller step. Explain why it fits. Add a support type, an opener and what to do if more help is needed.

Product 2 Online safety guide

Tell the younger pupil how to keep details private, ask before sharing another person and use kind words. Explain a footprint or copy limit. Give a safe stop and tell route with adult report or block help. Do not forward private or harmful content.

Resilience plan

Words: feeling, pause, ask

Start: They could… because…

Model: They could ask staff to show the first step.

Online safety guide

Words: private, copy, kind, report

Start: Before sharing…

Model: Leave private details out. Ask before sharing someone else.

Think about C

What may the learner feel? Which small step or support could fit? What should stay private? What trace or copy may remain? How can the guide be kind and show a safe help route?

Card 4 Review exit and help

Two review choices

Check both products with the shared checks. Or improve one weak reason. Keep one next step and your own reply in the usual mode.

Review

Words: check, reason, next step

Start: My next step…

Model: Add why copies may remain.

Two exit choices

Explain a safe route to help. Or correct Coping means doing it alone.

Private exit

Words: help, adult, support

Start: They can ask…

Model: Ask another trusted adult if help is not enough.

Help in private

Ask a trusted adult or school staff privately. A family doctor can discuss health and help find care. A suitable helpline can offer listening or advice; staff help find an age-appropriate route. Use words, a note, HELP or the usual aid. If the first adult is busy or help is not enough, ask another trusted adult. For an urgent concern get school staff at once. No service, website or number is named.

Pause card

I would like to use my agreed pause.
Show this card or your usual signal. Staff support the known supervised route. No public reason is needed. Return with support, use a calm task or catch up privately. Do not leave alone.

Safe report help

Stop engaging with content that causes concern. Do not forward it to prove it. Ask trusted school staff for help with report or block tools. If the first route is not enough, ask for another.
