Resilience and online safety words

Use these words for the invented younger pupil. No personal story is needed.

Resilience

Adapting when something feels hard or changes. It can include rest, a smaller step and help. It never means staying in harm or coping alone.

Mental health

Everyone has mental health. It links to thoughts, feelings and how we cope with daily life. A sign may suggest support, but does not prove a diagnosis.

Privacy

Think about who can see personal details. Share less, ask before sharing another person, and follow school rules.

Digital footprint

Traces from online actions and sharing. Other people may copy or share a post. Deleting it may not remove every copy.

Report

Tell a trusted adult about a concern. With adult help, use suitable report or block tools. Do not forward harmful or private content to prove it.

Useful starters

The learner may feel ... . A small step is ... because ... .
Before sharing ... . A copy may ... .
If something goes wrong ... . If help is not enough ... .

A model

A learner can ask for one smaller step and keep routine details private. Kind words and asking before sharing help respect others. Copies may remain. A trusted adult can help with a concern.

Private route

Use HELP, a note, words or your usual aid. Ask school staff in private. Pass or a supported pause is valid.
