Cover front sheet.

Look closely at rocks: introduce and explore.

Today I can.

I can check a rock. I can sort by one rule. I can say why it fits.

Stage timings.

Print list.

Print one tier pack per pupil, one Pupil Resources master, one Word Page and Knowledge Organiser per pupil who needs them, and one TA Brief per supporting adult.

Keep one Staff Answers and one Teacher and Cover Plan with the teacher. Answers are also in Teacher answers in this plan.

Green · Ready, Amber · Help, Red · Pause.

Return to learning: quiet pause, usual aid, one short task, then rejoin at the current step.

Catch-up · Look at one rock or card. Choose smooth or rough. Join the first rock check.

At check-out, record E for … against the pupil's target.

Made by Matt

TA Brief.

Starter question 1 revisits last week.

Green · Ready, Amber · Help, Red · Pause.

Return to learning: quiet pause, usual aid, one short task, then rejoin at the current step.

At check-out, record E for … against the pupil's target.

Exit pupil voice.

What helped you most today, or what would you change next time?

Point, speak, sign, draw, write or choose. You may pass.

Read or scribe the pupil’s own words. Record actual support and one work reference.

Guidance.

Use inspected samples only. No forced touch. No sharp or crumbling samples. Keep samples away from mouths and eyes. The adult handles any doubtful sample. A learner may observe or direct an adult. Stop if a sample becomes unsafe. This lesson observes and sorts; hardness and water tests belong to later teaching.

Formative practice. Record actual actions, support and gaps.

Accept the pupil’s own example or a pass. Record their own words and actual support.

Preparation and safety.

Prepare two or more clean, blunt, stable samples on trays. Inspect edges before use. Have large picture cards and an optional hand lens. Check the local practical risk assessment. No breaking, scratching, dust, liquids or tasting. Wash hands after handling.

Use inspected samples only. No forced touch. No sharp or crumbling samples. Keep samples away from mouths and eyes. The adult handles any doubtful sample. A learner may observe or direct an adult. Stop if a sample becomes unsafe. This lesson observes and sorts; hardness and water tests belong to later teaching.

P17 · SLT planning and evaluation.

Observe safe rock samples and use a checked feature to group them.

Embedded catch-up.

Look at one rock or card. Choose smooth or rough. Join the first rock check.

What needs re-teaching.

What changed after feedback.

P18 · Individual target opportunities.

Opportunity	Observe
Communication.	Explains or directs a response.
Reasoning.	Links a fact to a choice or check.
Self-regulation.	Chooses an aid or a pause.

Pupil ID.

Individual target.

Actual response and support.

Made by Matt

Adult deployment and responsive feedback.

The teacher models the task. The supporting adult reads, steadies or scribes as agreed. Keep the choice with the pupil.

Optional. Respond to feedback with an adult. You may pass.

Mark R only after the pupil has responded to feedback with an adult.

Offer one specific next step. Hear or read the pupil response. Reply and adapt the next cue when needed.

Science · BUILD · Autumn 2 · Week 2 · SCI_BUILD_A2_W02_P1.

Starter question 1 revisits last week.

At check-out, record E for … against the pupil's target.

Green · Ready, Amber · Help, Red · Pause.

Return to learning: quiet pause, usual aid, one short task, then rejoin at the current step.

Catch-up embedded.

Look at one rock or card. Choose smooth or rough. Join the first rock check.

Participation.

Optional. Respond to feedback with an adult. You may pass.

Mark R only after the pupil has responded to feedback with an adult.

Exit pupil voice.

What helped you most today, or what would you change next time?

Point, speak, sign, draw, write or choose. You may pass.

Teaching script 1.

Arrival · 4 min.

Invite a private regulation check. Green · Ready, Amber · Help, Red · Pause. Offer a quiet start, usual aid or pass. Use the cue and accept the pupil’s usual communication mode.

Starter · 3 min.

Starter question 1 revisits last week. Take one minute for recall and reveal. What are three ways to make less waste? Cue: Reduce · reuse · recycle. Expected: Use less, use an item again, or recycle materials. Then ask: Two rocks have different surfaces. What could you compare? Expected: Compare texture: one surface could feel smooth and another rough. Point to the safe samples or picture cards. Do not guess rock names.

Teaching script 2.

I do · 5 min.

Observe, name a feature, then sort. Look at the safe sample. Name one feature you can check. Place it with rocks sharing that feature. The rock feels smooth. I sort by feel. It joins the smooth group. Use one rule for the whole sort. Grain size and colour are different features. A picture cannot prove how a rock feels.

We do · 8 min.

A rock feels smooth. Which group fits our texture rule? Ask for a choice and a reason before revealing. A. Smooth. The checked feature is texture. Colour is a different rule. A dark rock feels smooth. Which feature decides its texture group?

Teaching script 3.

You do · 13 min.

Model one texture sort, then accept the pupil’s own observations. Read or scribe exactly. Record the sample, observed feature, rule and group. A picture response must cite visible features or supplied texture information, never an untested feel. Offer a safe second rule after a secure first sort. In your book, write two rock checks. Sort both rocks by one rule. Say your rule. Give one fact. Supported route. Sort two rocks or cards with help. Show one thing you checked. Independent route. Write a check and group for each rock. Say why each rock fits. Aspire challenge: Try a second rule. Say why one group changes. Choice route. Pick a route and a way to reply. Keep your own rock check and rule.

Teaching script 4.

Review · 4 min.

Check a group with your rule. Fix one word. Optional. Respond to feedback with an adult. You may pass. Mark R only after the pupil has responded to feedback with an adult. Keep the first response and any change separate. Edit in the same colour, on the same page or usual mode.

Exit · 3 min.

Ask the two route checks. What helped you most today, or what would you change next time? Point, speak, sign, draw, write or choose. You may pass. Accept the pupil’s own example or a pass. Record their own words and actual support. At check-out, record E for … against the pupil's target.

Teacher answers.

Starter · all routes.

1. What are three ways to make less waste?

Cue · Reduce · reuse · recycle.

Answer 1 · Use less, use an item again, or recycle materials.

2. Two rocks have different surfaces. What could you compare?

Answer 2 · Compare texture: one surface could feel smooth and another rough.

We do decision reveal.

A. Smooth. The checked feature is texture. Colour is a different rule.

Card answers and next steps.

Card	Answer and next step
A	Texture sort: smooth. Its light colour does not decide this sort.
B	Texture sort: smooth. A and B share the checked surface feature.
C	Texture sort: rough. Its light colour matches A in a different sort.
D	Texture sort: rough. Its dark colour matches B in a different sort.
E	For a grain-size rule, use the large-grain group. Do not infer texture.
F	For a grain-size rule, use the small-grain group. State the new rule.

Mark scheme.

Today I can.

- I can check a rock.
- I can sort by one rule.
- I can say why it fits.

Route	Accept at Exit
Supported.	A feature from the sample or labelled card and its matching group.
Independent.	A consistent property rule and a matching observed feature.
Aspire challenge: choose.	Yes, using different rules. A new rule can change membership.
Choice.	One observed feature and a group matching the chosen rule.

Pupil voice accepted answer.

What feedback did you get, and what did you change?

“The adult asked for my rule. I added smooth and rough.”.

What helped you most today, or what would you change next time?

Accept the pupil’s own example or a pass. Record their own words and actual support.

Keep each pupil’s observed features, grouping rule, checked placements and revision. Record actual support.
