Cover front sheet.

Look closely at rocks: show your sorting rule.

Today I can.

I can check a rock. I can sort by a rule. I can say why it fits.

Stage timings.

Stage	Minutes
Arrival.	4

Exit.	3
Total.	40

Print list.

Print one tier pack per pupil, one Pupil Resources master, one Word Page and Knowledge Organiser per pupil who needs them, and one TA Brief per supporting adult.

Keep one Staff Answers and one Teacher and Cover Plan with the teacher. Answers are also in Teacher answers in this plan.

Green · Ready, Amber · Help, Red · Pause.

Return to learning: quiet pause, usual aid, one short task, then rejoin at the current step.

Catch-up · Read the smooth and rough cards. Place one with help. Join at the first rock check.

At check-out, record E for … against the pupil's target.

Made by Matt

TA Brief.

Starter question 1 revisits last week.

Green · Ready, Amber · Help, Red · Pause.

Return to learning: quiet pause, usual aid, one short task, then rejoin at the current step.

At check-out, record E for … against the pupil's target.

Exit pupil voice.

What helped you most today, or what would you change next time?

Point, speak, sign, draw, write or choose. You may pass.

Read or scribe the pupil’s own words. Record actual support and one work reference.

Guidance.

Use inspected samples only. No forced touch. No sharp or crumbling samples. Keep samples away from mouths and eyes. The adult handles any doubtful sample. A learner may observe or direct an adult. Stop if a sample becomes unsafe. This lesson observes and sorts; hardness and water tests belong to later teaching.

Formative practice. Record actual actions, support and gaps.

Accept the pupil’s own example or a pass. Record their own words and actual support.

Preparation and safety.

Prepare two or more clean, blunt, stable samples on trays. Inspect edges before use. Have large picture cards and an optional hand lens. Check the local practical risk assessment. No breaking, scratching, dust, liquids or tasting. Wash hands after handling.

Use inspected samples only. No forced touch. No sharp or crumbling samples. Keep samples away from mouths and eyes. The adult handles any doubtful sample. A learner may observe or direct an adult. Stop if a sample becomes unsafe. This lesson observes and sorts; hardness and water tests belong to later teaching.

P17 · SLT planning and evaluation.

Apply and explain a rock grouping rule, then check it against fresh samples.

Embedded catch-up.

Read the smooth and rough cards. Place one with help. Join at the first rock check.

What needs re-teaching.

What changed after feedback.

P18 · Individual target opportunities.

Opportunity	Observe
Communication.	Explains or directs a response.
Reasoning.	Links a fact to a choice or check.
Self-regulation.	Chooses an aid or a pause.

Pupil ID.

Individual target.

Actual response and support.

Made by Matt

Adult deployment and responsive feedback.

The teacher models the task. The supporting adult reads, steadies or scribes as agreed. Keep the choice with the pupil.

Optional. Respond to feedback with an adult. You may pass.

Mark R only after the pupil has responded to feedback with an adult.

Offer one specific next step. Hear or read the pupil response. Reply and adapt the next cue when needed.

Teacher and Cover Plan.

Science · BUILD · Autumn 2 · Week 2 · SCI_BUILD_A2_W02_P2.

Starter question 1 revisits last week.

At check-out, record E for … against the pupil's target.

Green · Ready, Amber · Help, Red · Pause.

Return to learning: quiet pause, usual aid, one short task, then rejoin at the current step.

Catch-up embedded.

Read the smooth and rough cards. Place one with help. Join at the first rock check.

Participation.

Optional. Respond to feedback with an adult. You may pass.

Mark R only after the pupil has responded to feedback with an adult.

Exit pupil voice.

What helped you most today, or what would you change next time?

Point, speak, sign, draw, write or choose. You may pass.

Teaching script 1.

Arrival · 4 min.

Invite a private regulation check. Green · Ready, Amber · Help, Red · Pause. Offer a quiet start, usual aid or pass. Use the cue and accept the pupil’s usual communication mode.

Starter · 3 min.

Starter question 1 revisits last week. Take one minute for recall and reveal. What are three ways to make less waste? Cue: Reduce · reuse · recycle. Expected: We can use less stuff. We can use it again. We can recycle waste. Then ask: A dark smooth rock joins a feel sort. Which clue matters? Expected: Smooth tells us how it feels. Dark tells us its colour. Recall last week first. Then apply lesson 1’s texture rule to a fresh sample.

Teaching script 2.

I do · 5 min.

Check the rule, then add a rock. Read the group rule. Check the new rock. Place it and say why it fits. The rule says rough. This rock feels rough. It fits that group. Keep the same rule for the whole sort. Use a new rule for a new sort. A picture alone cannot show how a rock feels.

We do · 8 min.

The rule says rough. Which rock fits? Ask for a choice and a reason before revealing. B. Light and rough. Rough fits the feel rule. Colour does not decide this sort. A smooth rock is in rough. How would you check and fix it?

Teaching script 3.

You do · 13 min.

Use fresh cards or a new sample order, so recall is not copying. Begin with an individual prediction. Record actual features, rule and placements. Present a deliberate mismatch only after modelling. Ask the pupil to identify and repair it. Retain the original and correction. Record support rather than assuming independence. In your book, sort three rocks or cards. Write what you checked for each rock. Say your rule. Find and fix one wrong group. Supported route. Sort three cards with help. Show a group for each card. Independent route. Write a check for each rock. Give your rule. Fix one wrong group. Aspire challenge: Try a new rule for the same rocks. Say what has changed and why. Choice route. Pick a route and a way to reply. Keep three checked groups.

Teaching script 4.

Review · 4 min.

Check a new rock with your rule. Find and fix one wrong group. Optional. Respond to feedback with an adult. You may pass. Mark R only after the pupil has responded to feedback with an adult. Keep the first response and any change separate. Edit in the same colour, on the same page or usual mode.

Exit · 3 min.

Ask the two route checks. What helped you most today, or what would you change next time? Point, speak, sign, draw, write or choose. You may pass. Accept the pupil’s own example or a pass. Record their own words and actual support. At check-out, record E for … against the pupil's target.

Teacher answers.

Starter · all routes.

1. What are three ways to make less waste?

Cue · Reduce · reuse · recycle.

Answer 1 · We can use less stuff. We can use it again. We can recycle waste.

2. A dark smooth rock joins a feel sort. Which clue matters?

Answer 2 · Smooth tells us how it feels. Dark tells us its colour.

We do decision reveal.

B. Light and rough. Rough fits the feel rule. Colour does not decide this sort.

Card answers and next steps.

Card	Answer and next step
A	Texture sort: smooth. Its light colour does not decide this sort.
B	Texture sort: smooth. A and B share the checked surface feature.
C	Texture sort: rough. Its light colour matches A in a different sort.
D	Texture sort: rough. Its dark colour matches B in a different sort.
E	Use the big-grain group for a grain-size rule. Check feel separately.
F	Use the small-grain group for a grain-size rule. State the new rule.

Evidence to retain.

Keep each pupil’s observed features, grouping rule, checked placements and revision. Record actual support.

Mark scheme.

Today I can.

- I can check a rock.
- I can sort by a rule.
- I can say why it fits.

Route	Accept at Exit
Supported.	A supplied rough feature and the rough group.
Independent.	A checked property supporting placement and a rule-based correction.
Aspire challenge: choose.	Recheck each sample by the new property. The rule changes, not the rock.
Choice.	A checked feature and a consistent rule-based placement.

Pupil voice accepted answer.

What feedback did you get, and what did you change?

“The adult asked me to check texture. I moved the smooth rock.”.

What helped you most today, or what would you change next time?

Accept the pupil’s own example or a pass. Record their own words and actual support.
