Reference drawings

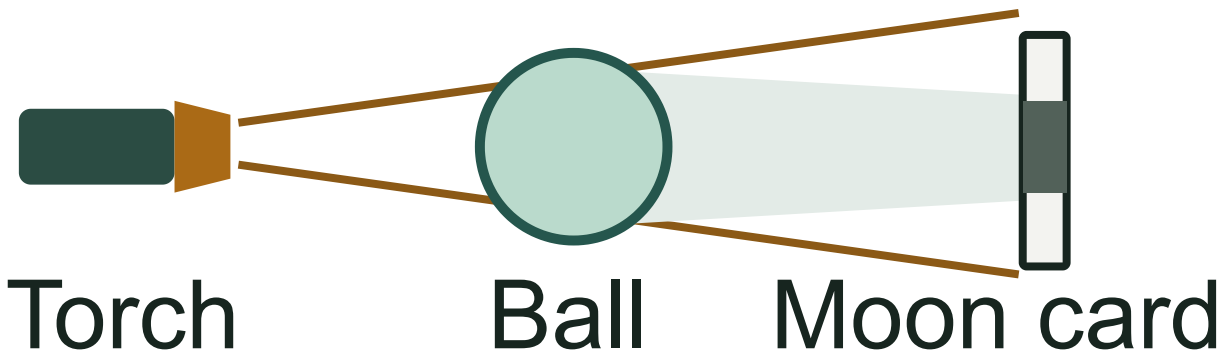

Two views of a ship at sea. This drawing shows the observation.

The edge of Earth’s dark shadow curves across the Moon.

A sphere is three-dimensional. The Sun, Earth and Moon are approximately spherical.

Torch and ball model

Adult demonstration. The card shows where the shadow falls. The drawing is not to scale.

The adult moves the ball or turns the flat disc. Compare the shadows. Keep the light aimed at the card.

The Sun is about 109 Earths across. The Moon is about a quarter of Earth’s width. The model is not to scale.

Lesson resource

Evidence cards

Read the observations. Sort the cards as Strong or Weak on its own. Give a reason before checking.

Ship at the horizon

As a ship sails away, the hull disappears before the mast.

Shadow during a lunar eclipse

When Earth’s dark shadow crosses the Moon during a lunar eclipse, its visible edge is always curved.

Photographs from space

Spacecraft photographs taken from different viewpoints show a rounded Earth.

Travel all the way round

People have travelled all the way round Earth and returned to where they started.

You do · Choice

Start in your book or in your usual response mode.

Choose a clue and a reason. You can point to the clue, then say, sign, draw or choose your reason.

Which tells you more about shape? Choose “repeated views from space” or “one trip returns to the start”. Choose a reason: “shows the rounded outline from several views” or “shows that a route forms a loop”.

Point, say, sign, draw, write or choose. You may pass.

Exit ticket · Choice

Choose the stronger clue: repeated space views or a trip that ends at its start. Show which clue gives a direct view of the shape.

Point, say, sign, draw, write or choose. You may pass.

Pupil voice

What helped you most today, or what would you change next time?

Point, say, sign, draw, write or choose. You may pass.

Feedback and response · Choice

Feedback codes

Feedback code	Mark or add a short cue
VF	□ _____
WS	□ _____
E	□ _____
NS + …	□ _____

Code	Meaning
VF	Verbal feedback
WS	Worked with support
I	Independent
NS + …	Next step
E	Evidence captured
R	Pupil responded to feedback
//	Self-edit point
?	Read this back to me

My response

Improve one part of your original work. Your improved work is your response.

Adult checks the response and ticks it, or writes R (Pupil responded to feedback).
