Knowledge organiser

Three cards show Benefit, Risk and Judgement.

I can weigh a possible benefit and a risk in a fictional stem-cell case using evidence.

Tier 2 words

Word	Meaning
claim	An idea you ask others to accept.
evidence	Information used to check a claim.
risk	The chance of harm.
judgement	A decision based on reasons.

Tier 3 words

Word	Meaning
stem cell	A cell that can divide and give rise to specialised cells.
differentiation	The process by which a cell becomes specialised.

Sequence Claim → evidence → counter → judgement.

How I know: Identify one possible benefit and one missing risk result. Explain how a result supports a claim and where it stops. Give a qualified judgement and request a further check.

You can plan in any language. Speak before you write: “The evidence supports this claim because …”
