The zoom shows a coiled chromosome, one gene section and a base.

I can zoom from a chromosome to a gene and a base, and explain how the three levels fit together.

Tier 2 words

Word	Meaning
section	A part of a larger whole.
sequence	An order of units.

Tier 3 words

Word	Meaning
DNA	The molecule that stores genetic information.
chromosome	A long DNA molecule packaged with proteins.
gene	A section of DNA that carries an instruction.
base	One unit represented by A, C, G or T in a DNA sequence.

Sequence Chromosome → gene → base.

How I know: Trace a chromosome to a gene and then to a base. Explain how a gene relates to the DNA molecule. Use the model to distinguish a base, a gene and a chromosome.

You can plan in any language. Speak before you write: “The evidence supports this claim because …”
