I can name what we change.

I can name what stays the same.

I can record what I see.

I am learning to keep a rock test the same each time.

Fair check: same drops and wait; inspect top, through and edge routes. No result is assumed. Simplified; not to scale.

I can name what we change. I can name what stays the same. I can record what I see.

Word page

I can name what we change.

I can name what stays the same.

I can record what I see.

Word	It means	Example
fair test	a check with one planned change	I use three drops each time.
same	not changed in each try	I use the same water.
change	make one thing different	I change the rock.
result	what the check showed	A drop stayed on top.

Change the rock. Keep the drop count and wait the same. Write what you see in a row.

Arrival and starter

I can name what we change.

I can name what stays the same.

I can record what I see.

See two rocks and a dropper.

Think back. Say, sign or point.

1. Name one raw and one made item.
2. Why can slate suit a roof?
3. How can food help a body?

You may point, sign, say or write your first ideas.

I do · model and check

I can name what we change.

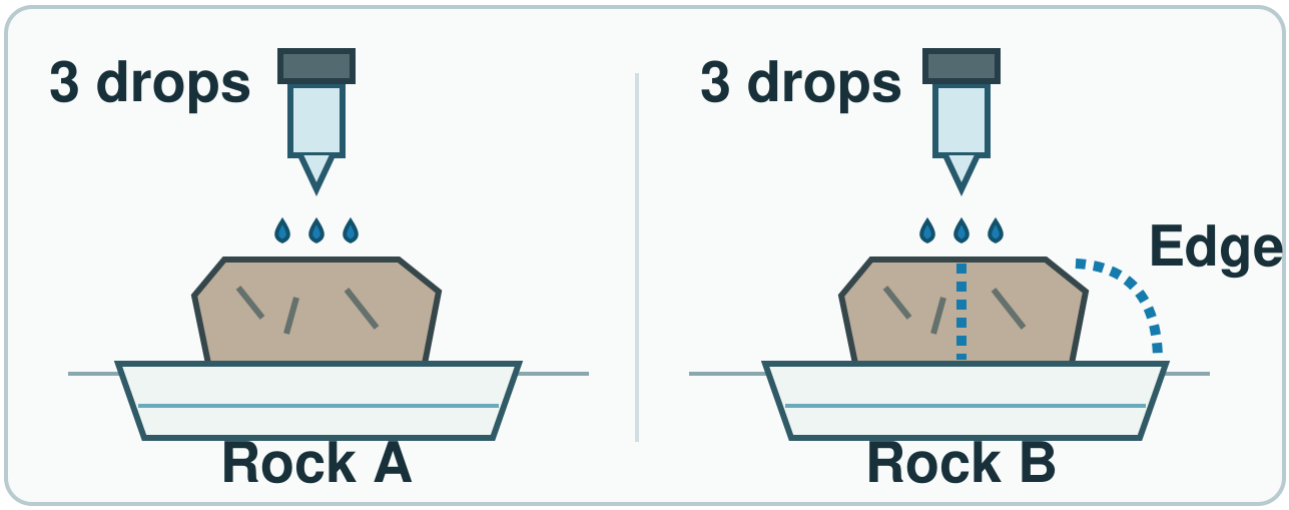

I can name what stays the same.

I can record what I see.

Watch a fair water check.

Watch: A gets three drops. I wait one count. B gets the same.

Show me: Do three drops on A and ten on B keep the water amount the same?

Fair check: same drops and wait; inspect top, through and edge routes. No result is assumed. Simplified; not to scale.

We do · sort and explain

I can name what we change.

I can name what stays the same.

I can record what I see.

Plan and run the same steps.

Our turn: A gets three drops. B gets ____ drops. I wait the same time.

Talk, then sort.

Card	Choose a group
Use three drops each time	Keep the same / Change
Wait for the same count	Keep the same / Change
Test a second rock	Keep the same / Change
Use the same tray each time	Keep the same / Change

Supported: Place three dot counters by each rock.

Independent: Plan what stays the same and what changes.

Aspire: Why could different sample sizes spoil this check?

We do 2 · choose and explain

I can name what we change.

I can name what stays the same.

I can record what I see.

What should we put in each sample?

A. Three drops each

B. Three on A, ten on B

C. No drops on B

All of us: New samples C and D get four and nine drops. Is the water amount controlled?

A. No. Give each four drops.

B. Yes. Both got some water.

C. No. Use the same rock.

D. Yes. D could be bigger.

Show your choice and say why. You may use a point, card, board or sign. Take one quiet minute to reset.

Independent · Supported

I can name what we change.

I can name what stays the same.

I can record what I see.

Test two rocks. Record what you see.

Say it first. You can plan in any language.

Point, sign, speak, draw, type, write, use a scribe or a staff-captured photo.

Point to what stays the same.

Say: I keep ____ the same.

Rock	Drops	What happened?
A	____	_____
B	____	_____

Choose one route within the full 8 minutes. Keep your own response.

I can name what we change.

I can name what stays the same.

I can record what I see.

Test two rocks. Record what you see.

Say it first. You can plan in any language.

Point, sign, speak, draw, type, write, use a scribe or a staff-captured photo.

One rock is much larger. How could you compare?

Say: The check may fail if ____; I will ____.

Go deeper: Drops run off an edge. Did water pass through? Fix it.

Fairness repair: Find two unfair steps. Fix them.

Rock	Drops	What happened?
A	_____	_____
B	_____	_____

Choose one route within the full 8 minutes. Keep your own response.

Practical model · safe steps and record

I can name what we change.

I can name what stays the same.

I can record what I see.

Guess first: Will the drops act the same?

Kit: Two like-size safe rocks · Dropper · Tray

Guess first.

Add three drops to A. Wait one count.

Do the same on B.

Record and compare.

Risk: Rock edges may scratch skin; water may spill.

Safe: Use blunt rocks in a tray. Wipe spills. Do not taste; wash hands after.

Rock	Drops	What happened?

Use the kit your teacher has checked. A picture or adult-led model is a valid route.

Review and exit

I can name what we change.

I can name what stays the same.

I can record what I see.

Check two rows. Hear a next step.

Hear feedback (VF) and one next step (NS(+)). Edit one part (//).

Take one quiet minute to reset.

Say what stayed the same.

Read it back: I am learning to keep a rock test the same each time.

My feedback was… I showed…

Next I need to… try one small fix.

How I know: I can name what we change. I can name what stays the same. I can record what I see.

Tell your teacher. They will pick our next start.

Take one quiet minute before the next lesson.
