Researching the Solar System

Today I can… ☐ I can find a fact on a class source card. ☐ I can name the card that supports my fact. ☐ I can fix a claim that the card does not support.

Researching the Solar System

Today I can… ☐ I can find a fact on a class source card. ☐ I can name the card that supports my fact. ☐ I can fix a claim that the card does not support.

Starter

Think back. Say, point or write one answer for each question.

1. What shape is the Moon roughly?

2. Why do we get day and night?

3. What goes round Earth?

Today I will check:

I can find a fact on a class source card.

I can name the card that supports my fact.

I can fix a claim that the card does not support.

Researching the Solar System

Today I can… ☐ I can find a fact on a class source card. ☐ I can name the card that supports my fact. ☐ I can fix a claim that the card does not support.

I do

I read card B: Earth goes round the Sun. I point to card B as my source. A claim without a matching source is a guess.

Watch: Claim: Earth goes round the Sun. Card B says the same. Cite card B.

Show me: Card B says Earth goes round the Sun. Which card should I name with that claim?

Researching the Solar System

Today I can… ☐ I can find a fact on a class source card. ☐ I can name the card that supports my fact. ☐ I can fix a claim that the card does not support.

Class source cards

Card A

The Sun is a star.

Card B

Earth goes round the Sun.

Card C

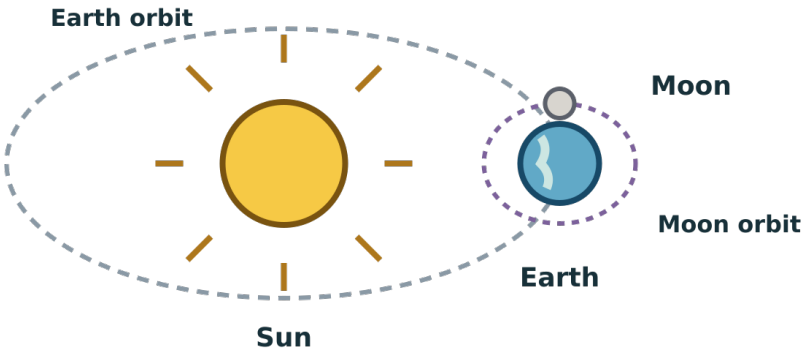

The Moon goes round Earth.

Researching the Solar System

Today I can… ☐ I can find a fact on a class source card. ☐ I can name the card that supports my fact. ☐ I can fix a claim that the card does not support.

We do

Card A is matched to Sun is a star. Card B has a fact but no label. Find the missing source label for Earth goes round the Sun.

Our turn: Claim: The Moon goes round Earth. Card C says the same. Cite card ____.

Talk, then sort.

Sun is a star. Choose Card A, Card B or Card C.

Earth orbits the Sun. Choose Card A, Card B or Card C.

Moon orbits Earth. Choose Card A, Card B or Card C.

Supported: Point to the sentence on card B and read or hear it before choosing its label.

Independent: Share two facts and name each matching card.

Aspire: Explain why card A supports the Sun claim but does not support the Moon claim.

Researching the Solar System

Today I can… ☐ I can find a fact on a class source card. ☐ I can name the card that supports my fact. ☐ I can fix a claim that the card does not support.

We do 2

Choose the claim that our class fact cards support. Show one answer at the same time.

Which claim can you support from card C?

The Moon orbits Earth.

The Moon is a planet.

All of us: Which claim is backed by our class cards?

A. Earth makes its own light.

B. The Sun is a star.

C. The Moon is a planet.

D. Card C says Earth goes round the Sun.

Point. Tell a partner why.

Take one quiet minute to reset.

Researching the Solar System

Today I can… □ I can find a fact on a class source card. □ I can name the card that supports my fact. □ I can fix a claim that the card does not support.

You do · Supported

Share two facts about the Solar System. Name the class card that supports each fact. Correct one claim if its card does not match.

Talk first. You can plan in any language.

Point, sign, speak, draw, type, write, use a scribe or show a staff-captured photo.

Point to one fact and its source card.

Say first: Card ___ says ___.
