Global warming and choices

Today I can… ☐ I can put cause before effect. ☐ I can say how gases add to warming. ☐ I can compare a cut in emissions with help for an impact.

TA brief

Prepare four cause/middle-link/impact/action cards and the source diagram. Real observation needs two equal ice pieces, two trays, dark and light card and a staff clock. Check the school risk assessment and [SYS] guidance. Use no heater or heat source.

No cold calling. Pupil may pass. Read inaccessible text and scribe exact words. Keep prompts separate from pupil evidence.

Prompt ladder

1. Point to the relevant place / instruction.

2. Ask one short question: "What is it asking you to find?"

3. Rephrase the instruction in simpler language.

4. Provide a scaffold or limited choice.

5. Model the first step only, then return the task to the pupil.

Source-specific cues: I do: Watch me place cause before effect. We do: Which link is in place? What might go between gas and impact? Independent: Point to your first link. Which part can you explain on your own?

Arrival 5 min and Starter 3 min: use predictable start and all three prior questions; check actual taught coverage.

Global warming and choices

Today I can… ☐ I can put cause before effect. ☐ I can say how gases add to warming. ☐ I can compare a cut in emissions with help for an impact.

TA brief continued

I do 5 min: model the warming chain and teach four words. Use source diagram qualifiers. Ask which cause card fits.

We do 7 min: use part-done chain, all four sort cards and route support. Prediction and real ice observation stay within this budget. Put equal pieces on dark/light cards in trays in the same light. Observe at one set time and record the actual result. No heater. Dry spills. This is not a greenhouse-effect model or proof.

We do 2 5 min: step check Flood defence / Cut fuel use, then all four depot hinge choices. Use diagnoses and parallel case in Staff Answers. Keep reset inside the stage.

Independent 8 min: source Supported/Independent/Aspire tasks and both council challenges remain. Use actual staffing plan and agree roles; swap across the week.

Review and improve 4 min: precise VF and NS+, one chain-card edit and reason. Exit 3 min: hear cause/effect/action and which link changes. Name how this informs next example/support. Hand off deepest prompt and independent evidence separately.
