Teacher and cover plan

1. Outcome

I am learning to… choose a model that fits a science question and use a matching clue.

Weekly line C43: Consolidate forces, space and climate; answer scientific questions.

2. Arrival

Use the source retrieval and a predictable start; check actual prior coverage.

3. Starter

Keep each first idea visible. Accept point, sign, speech or an exact scribe.

4. I do

Model the science and the source words. Keep the worked example and its limit.

5. We do

Hear both choices and reasons. Re-model when needed, then use the parallel check.

6. You do

Choose two stations. Give a claim and matching clue for each. Name one limit.

7. Routes

Supported / Independent / Aspire are choices of access and challenge within one task budget.

8. Access

No cold calling. Learner may pass; allow a quiet pause and exact scribing.

9. TA role

Use the five-step prompt ladder. Record support separately and fade it.

10. Exit

Hear each learner’s response and use it to choose the next teaching step.

11. Evaluation

Date taught _____ Changes, reasons and coverage _____

Teacher and cover plan · kit and timing

12. Kit, safety, evidence and timing

Prepare a small toy, rough and smooth paper, start line, ruler, low clear track, torch and marked ball, warming-chain cards and record sheets. The toy table has two runs on each surface. A demonstration, supplied model or pointing route is valid.

Check the school risk assessment and current local science guidance. A moving toy may fall or hit someone. Use a low clear track and keep hands and faces away. Keep kit at desk height and torch light out of eyes. Keep the toy, start and launch method the same; one uncontrolled run cannot establish a cause.

Time	Stage
0–5 min	Arrival
5–8 min	Starter
8–13 min	I do
13–20 min	We do
20–25 min	We do 2
25–33 min	Independent
33–37 min	Review
37–40 min	Exit

Total 40 minutes. Quiet resets and feedback sit within the stated blocks. Alternate routes do not add time. Each learner keeps their own evidence.

Evidence: first response, result or labelled explanation, actual feedback, pupil response and Exit. Use SCI-GROW-A2-W05. Record adult prompting separately.

Record any change, reason and coverage impact. Preserve the core task and hand over checked understanding.
