Word page

I can match a question to a model.

I can give a claim with a matching clue.

I can say one thing the model cannot show.

Word	It means	Example
force	a push or pull on an object	Friction is a force that can slow a toy.
rotation	a turn around an axis	Earth’s rotation brings day and night.
evidence	an observation or result that supports a claim	The shorter run is evidence for my answer.
climate	weather patterns over many years	A hot day alone does not show a climate trend.

Read the question first. Choose the model that can show a useful clue. Give the clue, your claim and one limit.
