Teacher and cover plan

1. Outcome

I am learning to… use a model and a matching clue to show what you know in science.

Weekly line C45: Review and evidence autumn science ([QUAL] / [QUAL]).

2. Arrival

Use the source retrieval and a predictable start; check actual prior coverage.

3. Starter

Keep each first idea visible. Accept point, sign, speech or an exact scribe.

4. I do

Model the science and the source words. Keep the worked example and its limit.

5. We do

Hear every learner’s own choice and reason. Re-model for those unsure; secure learners try a fresh check.

6. You do

Choose two science questions from forces, space or climate. Show an answer with a model and a matching clue. Use only your agreed support if this is formal evidence.

7. Routes

Supported / Independent / Aspire are choices of access and challenge within one task budget.

8. Access

No cold calling. Learner may pass; allow a quiet pause and exact scribing.

9. TA role

Use the five-step prompt ladder. Record support separately and fade it.

10. Exit

Hear each learner’s response and use it to choose the next teaching step.

11. Evaluation

Date taught _____ Changes, reasons and coverage _____

Teacher and cover plan · kit and timing

12. Kit, safety, evidence and timing

For up to five learners: two sets of toy/surface cards, two torches and marked balls or their picture models, two long-term climate-card sets, trays, and five record sheets with pencils. Five work as a pair plus trio; four as two pairs; three as a trio. Keep one record per learner.

Use familiar adult-checked kit. Keep small parts on trays, any toy run low and clear, and torch beams away from eyes. Launch only with permission. Prepared cards are a valid route. Confirm the local risk assessment and any formal-evidence conditions.

Time	Stage
0–5 min	Arrival
5–8 min	Starter
8–13 min	I do
13–20 min	We do
20–25 min	We do 2
25–33 min	Independent
33–37 min	Review
37–40 min	Exit

Total 40 minutes. Quiet resets and feedback sit within the stated blocks. Alternate routes do not add time. Each learner keeps their own evidence.

Evidence: first response, result or labelled explanation, actual feedback, pupil response and Exit. Use SCI-GROW-A2-W07. Record adult prompting separately.

Record any change, reason and coverage impact. Preserve the core task and hand over checked understanding.
