Staff answers and checks

Autumn 2 · Week 2 · Lesson 2 · Tuesday 10 November 2026

Arrival

Any comfortable even timed movement; note whether extra help is needed.

Keep one beat space silent, with a nod or pointer maintaining time.

A is four taps; B is taps on one and three and rests on two and four.

A real next step from lesson one, or a fresh observed need if the pupil was absent. Do not invent prior evidence.

Starter

Yes, if each beat space stays even. A has four sounds. B has two sounds and two rests, all with the same full beat length. Both end after four beats.

Guided practice

A supplies four quiet taps per round. B taps on one and three, keeping two and four as full quiet beats. Both parts start after the same count-in, last eight beats across two rounds and stop together. Observe each pupil’s own timing rather than awarding a group tick.

Exit

A or B, or a pulse/pointer role; the pupil identifies the actual part and mode used.

Count, watch the pointer, nod or follow an even pulse. A rest remains a full quiet beat.

One specific action from the real attempt. Accept a demonstrated change and record the actual prompt.

Accept pointing, quiet movement, speech, signs, drawing and checked scribing. Check the actual beat positions and part; participation alone does not show that a pulse or part was learnt.
