Staff answers and checks

Autumn 2 · Week 2 · Lesson 2 · Wednesday 11 November 2026

Arrival

TAP REST TAP TAP across four equal beats. Provide the score if retrieval needs support.

Beat 2 for one full beat.

A genuine recorded next step; if no record exists, agree a new aim without inventing history.

The agreed STOP signal is recognised and acted on; use silent rehearsal first.

Starter

Beat 4. Align the two scores and point down column 4. Beat 2 has a rest in A and a tap in B.

Guided practice

A sounds on 1, 3 and 4; B sounds on 2 and 4. Both sound together on 4. They keep the same four-beat length, including silent positions. Recovery follows the pulse silently until the next beat-1 cue.

Exit

A rests on 2; B rests on 1 and 3. Accept the chosen score accurately described or shown.

Follow the pulse silently and rejoin at the next beat-1 cue. Do not rush extra sounds to catch up.

An observable individual response and another attempt, such as a more aligned beat 4. A reasoned decision to keep a secure method is valid if checked.

Accept pointing, quiet movement, speech, signs, drawing and checked scribing. Check the actual beat positions and part; participation alone does not show that a pulse or part was learnt.
