Support adult brief

Tuesday 1 December 2026 | P6 | 40 minutes

Before

Offer white or pink paper and a private response mode. Prepare fresh copies. Model is the adult example; Task is the pupil workspace.

Model

Point to selected cells, chart columns and labels. Show that row 7 is outside the chart range. Give processing time and check one matched value.

Together

Use the prompt ladder: point to instruction; ask a short question; rephrase; offer a scaffold or choice; model the first step only, then return the task.

Independent

Prompt the next check without supplying the whole solution. Use exact typing if agreed and record it. One device: change turns at six minutes while the other pupil plans in their book.

Record

Keep individual evidence of selection, chart creation, labels, scale, update and reopen. Distinguish access support, reasoning prompts and adult correction.

Close

Give one next step privately. Wait for a response and acknowledge it. Mark digital work not yet observed if only a paper chart was made.
