Support adult brief

Tuesday 8 December 2026 | P6 | 40 minutes

Before

Offer white or pink paper and a private response mode. Prepare fresh files. The practice deck has deliberate issues; use the teacher model to show the repair.

Model

Point to title, text and chart. Show the relevant description or order control. Check one repaired feature before adding another demand.

Together

Use the prompt ladder: point to instruction; ask a short question; rephrase; offer a scaffold or choice; model the first step only, then return the task.

Independent

Prompt the next check without doing the whole repair. Use exact typing if agreed and record it. Change one-device turns at six minutes while the other pupil plans in their book.

Record

Keep individual records of edits, data checks, description, order, preview and reopen. Distinguish access support from reasoning prompts and adult corrections.

Close

Give one next step privately. Acknowledge the pupil response. No live talk or reading aloud is required. Mark unobserved digital checks not yet.
