Learning outcome: Structured evaluation of causes & consequences.

This assessing week brings together our unit. Evaluate causes of war in Europe, the removal of rights in Germany, consequences, and why we remember. These are linked areas of study, not one single event. Use facts to explain reasons and weigh a judgement. Keep full lives, dignity and limits in view.

Area	Evidence and careful judgement
Conflict causes	1919 background; Nazi aims and choices; concessions failed; invasion of Poland on 1 September 1939 was the immediate trigger.
Rights in Germany	7 April 1933 state jobs with early exceptions; 15 September 1935 citizenship laws and later rules; November 1938 public-school exclusion.
Consequences	Work, rights, education, lives and communities were harmed. The Holocaust was Nazi-led persecution and murder of six million European Jews; other groups had differing experiences.
Remembrance	27 January in the UK; honour people, learn carefully and think about shared responsibility. A day alone cannot stop hatred.

Evaluation method

Give a claim, evidence, an explanation, a judgement and a limit. Compare roles without ranking suffering. A later date does not prove inevitability. War, rights laws and the Holocaust are distinct areas of history.

Use your own words and codes. First attempt before review model; any later revision is labelled supported follow-up. No word target, forced feeling or personal disclosure.

Historians and museum educators weigh evidence and explain limits with care.
