In your book: Your chosen statement and one short reason.

Which statement can we support?

1: All festivals use the same colours and patterns.

2: People can choose different colours and patterns for a light display.

3: Cool colours cannot stand out on dark paper.

Choose a statement and a reason.

Write, draw or stick your answer here.

I do · key model

In your book: One art word with its meaning and an example letter.

We are exploring made-up art for an imagined light display.

These examples do not stand for a whole culture or faith.

A: A yellow ring, then an orange dot. That pair repeats.

The marks use warm colours on a dark ground.

B: The same shapes in the same places use cool blue and green.

Both warm and cool marks can stand out on a dark ground.

C: The same warm marks as A have a pale yellow ground.

The yellow rings are less clear here. They blend into the ground more.

Contrast is the difference that helps a mark stand out.

A maker can choose colours and a repeat to create an effect.

Record one key link or step.

We do · 8 min · 14 to 22

In your book: The guided example (Same and Change), then one comparison and one choice with an art reason.

Compare, choose, explain

Guided example: compare A and B.

Both have a ring, then a dot, on a dark ground.

What changes? Choose: colour group / shape order.

Our example space: Same _____ Change _____

Everyone now has two comparisons.

1. Compare A and C. Choose: same ground / different ground.
2. Compare A and B. Choose: same shape order / different shape order.
3. Choose warm or cool colours for an imagined light display on dark paper.

Show a colour or pattern feature and a reason: “I choose ___ because ___.”

Record one guided example and one clue.
