Words for emotions and stress

Use the words with a made-up story. One word or clue cannot diagnose a problem.

Word	Meaning
Emotion	How a person feels.
Worried	Uneasy about what may happen.
Frustrated	Annoyed when something feels blocked or hard.
Relieved	Less worried after a concern eases.
Pressure	Demands that can feel hard to manage.
Stress	A response to pressure.
Strategy	A way to deal with a task or problem.
Healthy way	An action that supports wellbeing and keeps people safe.
Support	Help from another person or a useful change.

Useful frames

“They may feel ... . The clue is ... .”

“One way is ... . It may help because ... .”

“Another is ... . They can ask ... in private.”

Visible model

The young person feels worried about where to start. A small step can make the task clear. An adult can help agree the order.

Private help

Point to HELP or ask a trusted adult for a private talk. You may pass or take a supported pause.
