Words for resilience and learning

Use these words with invented stories. They do not label a person as strong or weak.

Word	Meaning
Resilience	Finding a way forward when things are hard, with support if needed.
Growth mindset	The idea that skills can develop with useful practice, feedback and support.
Difficulty	Something that makes a task hard.
Feedback	Information that helps a person check or improve a step.
Strategy	A way to approach a task.
Practise	Repeat or work on a skill with a clear purpose.
Next step	One useful action to try after a check.
Support	Help that can make a task or situation more manageable.

Useful frames

“One useful step is ... because ... .”

“They have not ... yet. They can ... .”

Visible model

A can use the feedback to learn a wider fold. Trying a change with help may be useful. There is no promise that every try will work.

Private help

Point to HELP or ask a trusted adult for a private talk. You may pass or take a supported pause.
