Words for mental health and support

Word	Meaning
Mental health	Part of health. It links to thoughts, feelings and how we cope. Everyone has it.
Sign	A clue that may show a need for support. It does not prove a cause.
Support	Help that fits what a person needs.
Trusted adult	An adult a person feels safe asking for help.
Diagnosis	A health judgement made by a suitably trained professional. A class cannot make one from a story.
Private	Away from the group. Staff may need to share a concern with people who can help.
Helpline	A way to ask trained people for advice or support. Staff can help find a suitable one.

An opener

Can we talk in private? I would like some help.

Remember

A person can ask for help at any time. Signs can have many causes. For class work, use the made-up stories. Use your usual aid, type or ask for a scribe. You can pass.
