Model and starter answers

The visible model is fictional: Monday 4 January, I drew; Wednesday 6 January, I read; Thursday 7 January, I walked. First/next/last follows that order. Starter cards differ: Monday I played; Wednesday I rested; Thursday I drew. Do not score copying the model as own-week evidence.

Full day order: Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, Sunday. The displayed week is 4–10 January 2027. Today is Thursday 7. Friday to Sunday are future days. A planned event is not a completed event.

Formative success check

Check an individual order of three actual, safe events across at least two days, or three events whose within-day order is known. Confirm day/time order privately. Look for first/next/last in words, position or the usual supported mode. Record help. Use two cards as a scaffold, then a third. A pupil who only sorts two has made progress but has not yet met the three-event finish.

Common errors

Day-name order error: trace the visible day strip and rebuild two cards. Then add the middle day. Within-day error: a day label alone cannot decide which event was first; use a known time cue or keep the order uncertain. Future event as past: mark it as a plan and choose a completed event instead. Unknown event: never invent it.

No public questioning

Give short private prompts: “Show first.” “Use the day strip.” “Keep or change?” Let a pupil pass on details. Use safe class work or an anonymous model for practice. Own-week evidence stays unconfirmed if there are no actual events to support it.

Support and actual evidence

Code	Own events and order	Actual help or gap
Pupil number: ____	_____	_____
Pupil number: ____	_____	_____
Pupil number: ____	_____	_____
Pupil number: ____	_____	_____

Use the fourth pupil-number field only if a fourth pupil attends. Leave absent pupils blank. No result is pre-filled. Use the individual evidence record for exact words, selected labels, date cues, feedback and response.

Level 2 scaffold check

Every task has a visible word bank, sentence starter and worked model: arrival, ready starter, day-order practice, own-event choice, book record, review and exit. Supported, Independent and Aspire retain all three. A scribed response is valid; it does not establish independent writing or reading.

Exact scribing

Record the pupil’s chosen event/day and order, write their words or selected labels, then read back privately. The pupil confirms or changes the record. Note each actual prompt. If the adult supplies the order, keep it as supported practice and identify what the pupil later does themselves.

Feedback and later assessment

Give an actual audience reply and one NS, then retain the pupil’s response in the same colour, on the same page or usual mode before R. E means actual banking only. This week is formative. The owner sets Week 6 as the assessing then-and-now task. [AWARD] / [QUAL] checks remain separate; no unit completion is inferred.
