Source and exact outcome

Order pictures on a simple timeline. From BUILD Weekly - Spring!B42/C42. Thursday 21 January 2027, P3. Theme: Resilience & Change. Formative; Week 6 is assessing under the owner brief.

Picture key

Top row from left: A sewn strap with patch and stitches; B whole strap; C torn strap with frayed ends. Bottom row: D painted box; E chipped paint; F bare wooden box. Each set has three pictures. The designs and object stories are invented; no product dates or makers are implied.

Answers and visible model

Starter: B is whole and C is torn. Bag timeline: first B whole, next C torn, last A sewn. Box timeline: first F bare wood, next D paint, last E chips. Use the supplied story clues to justify the order. A point to the torn edge or repair patch with the matching time label is a valid supported response.

Private hinge and parallel check

Sewn goes after torn in the bag story. Bare wood goes before paint in the box story. If unsure, reread the relevant clue and offer two positions, keeping the model. Recheck privately using the other story.

Misconceptions and reteaching

The printed left-to-right card order is deliberately mixed. Letters identify cards; they are not the time order. A timeline shows when events happen, not object size or colour. A neat-looking repair can come later than damage. Do not generalise that all old objects are broken, or that all boxes follow this story.

Record only what happened

Code	Actual set and order	Time phrase and help
Pupil number: ____	_____	_____
Pupil number: ____	_____	_____
Pupil number: ____	_____	_____
Pupil number: ____	_____	_____

Use the fourth pupil-number field only if a fourth pupil attends. Leave absent pupils blank. Check each pupil places or directs all three cards and selects a time phrase. A shared model alone does not establish individual ordering.

Scaffolds and scribing

Every task keeps bank, starters and visible model. Adult reads clues quietly if wanted, offers two choices and moves cards only as directed. Scribe exact selected words. Read back for keep/change and record actual prompts. No public questioning or required reading aloud.

Aspire

Order both sets or add an accurate before/after link. Word bank: before, after, torn, sewn. Starter: __ comes after __. Model: Sewn comes after torn. A second set is extension; one correctly ordered set remains the core finish.

Feedback and evidence

Use HUM-BUILD-S1-W03-E1. Offer authentic responses to the Communication portfolio. Actual audience reply, one NS and the pupil’s own response precede R. Actual banking precedes E. [AWARD] / [QUAL] checks stay separate; no qualification completion is inferred.
