How can beliefs help when a plan must change?

Today I can… ☐ I can link a belief to a possible response. ☐ I can use a detail from a source. ☐ I can keep the claim small and fair.

Feedback: ☐ VF ☐ WS ☐ I ☐ NS ☐ E ☐ R ☐ [//] ☐ [?] _____

RE learns about beliefs, change and resilience; this activity is not worship

STAFF ANSWERS

Arrival · Supported

1. It becomes different; accept a sensible prior idea.
2. A reason; accept a sensible prior example.
3. Ask for help, pause, try a new plan or another safe response.
4. Yes; accept a sensible prior idea, with no personal belief request.

Arrival · Standard

1. A part is different, such as place, time or method; accept a sensible baseline idea.
2. It gives the why behind a choice; accept a sensible prior idea.
3. Safe help, a pause, an accessible tool or a new plan; do not require personal experience.
4. Different people can have different aims or values; accept a sensible prior explanation.

Arrival · Stretch

1. No. Plans can change for reasons outside a person's control; accept a sensible prior reason.
2. A reason can explain a choice; a guess without evidence may misrepresent the person.
3. It can provide needed information, access or support; coping does not require doing everything alone.
4. Different people can make the same choice, so the act alone does not establish a belief.

Exit · Supported

1. Checking facts links to reason; asking about needs links to care.
2. Make a safe new plan, listen or seek help, with a reason linked to the card.

Exit · Standard

1. Reason supports checking facts and care supports finding needs while the plan changes.
2. The case does not identify the person's worldview or promise success.

Exit · Stretch

1. A reasoned source-linked explanation of checking facts/caring while adapting the meal plan.
2. The plan might miss needed help. Link asking about needs with care; do not require or invent any actual personal need.

STAFF ANSWERS · continued

Starter

Answer (adult): No. A plan can fail without making people failures. Treat this as a low-risk opening choice, not personal disclosure.

We Do

Answer (adult): A links hope with care/kindness. A supported application is asking who needs help, sharing a safe task or seeking a new plan. The action is an authored inference for C, not a real believer's testimony or a promised result.

You do routes

Route guidance: A source-linked belief/value, safe application to the changed plan, and limit. A: hope/care; B: reason/evidence/care. Accept different defensible actions. Do not accept guessed identity, guaranteed success or blame. Choice needs a pupil-owned reason, not an adult-selected option.

Supported and Choice retain the same essential outcome. Record only pupil-selected content. A word/phrase may show the reason; an adult-selected answer does not. Aspire is not automatic independent evidence. An accurate alternative judgement with evidence may be accepted where the question permits it.

Review evidence: keep the original response and the pupil's own edit or stated reason to retain it. Use R only after the adult receives it, names the change back and records its effect on the next step. The evidence artefact is source-linked response about coping with a changed plan.
