STAFF ANSWERS

Arrival · Supported

1. Care/help/kindness or attention to needs.
2. No; the Christian account used faith-based hope, while the humanist account used reason/evidence/care.
3. No.
4. A belief, theme, meaning or practice; accept a sensible prior idea.

Arrival · Standard

1. Both can guide care: A calls for kindness to people in need; B values care/empathy and effects on others.
2. A uses Christian faith-based hope; B uses a non-religious humanist approach of reason, evidence and care.
3. Different people may choose the same kind act; the case does not identify their beliefs.
4. The source, tradition/context and stated meaning or practice; accept a sensible prior idea.

Arrival · Stretch

1. Care is a possible shared action or aim, while the accounts ground their reasons differently.
2. Accurate detail from each: Christian hope in new life/care and humanist reason/evidence/care.
3. It avoids treating one account as every member’s view or guessing a person’s identity.
4. Themes can be similar while stories, beliefs or practices differ; accept a sensible bridge idea.

Exit · Supported

1. X hope/new life/kindness; Y spring/good overcoming evil.
2. Accurate contrast in belief/theme or described use of colour.

Exit · Standard

1. Both can be read through new beginnings/renewal, with the source details stated.
2. Easter Christian new-life hope versus Holi spring/good over evil and colour as described.

Exit · Stretch

1. A qualified comparison drawing on both supplied meanings.

2. Similar themes do not mean identical beliefs; source labels avoid mixing or universalising meanings.

Starter

Answer (adult): No. Meanings depend on the source and context.

We Do

Answer (adult): A links Easter to Christian belief that the central teacher rose from death, renewed hope and kindness/care. Its meaning must not be transferred to Holi. The display label is about the source; no pupil is required to celebrate or believe it.

You do routes

Route guidance: Two accurate source labels and a comparison. Easter is the Christian hope/new-life account; Holi is the Hindu community's spring/good-over-evil account. A has a caring response rather than a detailed ritual; do not invent a practice. Renewal is a reasoned comparison, not a claim of identical belief or universal practice. A paper symbol is authored, not a sacred original.

Supported and Choice retain the same essential outcome. Record only pupil-selected content. A word/phrase may show the reason; an adult-selected answer does not. Aspire is not automatic independent evidence. An accurate alternative judgement with evidence may be accepted where the question permits it.

Review evidence: keep the original response and the pupil's own edit or stated reason to retain it. Use R only after the adult receives it, names the change back and records its effect on the next step. The evidence artefact is two festival source labels with a defended comparison.
