RE learns about ethics and worldviews; this activity is not worship. Reflection is optional and never worship.

Teacher and cover plan

1. Lesson outcome. LAUNCH-RE-S1-W05; Ethics, justice and resilience. Outcome: Evaluate a viewpoint with reasons. To be able to… evaluate a viewpoint using evidence, a counterargument and a reasoned judgement. Success today: I can… explain a strength and a limitation of a viewpoint before giving a supported judgement.
2. Arrival 1–4. 5 min · KEEP. Use one tier: three prior checks and the link. Keep four first responses; recap only after first try. TA: Help locate the first question and begin within about two minutes. Avoid: Do not answer the four questions or reveal recall before the first attempt.
3. Starter. 3 min. Two argument labels: “I dislike that view” and “This fact challenges the view because…” Question: Which label begins a reasoned counterargument? In your book: record one brief choice or reason, unless passing. TA: Read the single question once and allow private thinking. Avoid: Do not provide the response or turn this into a second retrieval grid.
4. I Do. 6 min · KEEP. Use the complete I Do method model and its named source. Record one useful model step or word; no board copying. Hide the model before the own task. TA: Support attention to the one chunk and point to its source. Avoid: Do not give a parallel explanation or require copying from the board.
5. We Do. 8 min · KEEP. Use the We Do source and prompt. Keep one guided example and the pupil’s own contribution before revealing the shared check. TA: Prompt one contribution and an exact pupil-owned record. Avoid: Do not complete the guided response for the pupil.
6. You Do. 15 min · KEEP. Use the chosen source-based route. Keep the pupil’s response and review within the allocated You Do time; exact route and answer guidance are in Staff_Answers.pdf. TA: Offer the independent attempt first, then use the held ladder and record actual support. Avoid: Do not give a content answer or leave a complete model visible throughout the attempt.
7. Support routes. Independent first; Supported then Choice as needed; Aspire is separate. Staff record actual I/S/C and exact prompts; leave the pupil’s box empty.
8. Adaptations / normal ways of working. Pre-teach key terms; chunk sources/data; dual coding; model first question/paragraph; scaffold then fade; accessible font/spacing; reader/scribe/laptop/overlay and extra processing time; private pass; planned regulation/movement break, return to step 1 on current source task; no harm enactment or personal disclosure; neutral community-case alternative; no real flame or sacred-object handling; no compelled forgiveness. No cold calling; nobody is asked to read difficult text aloud.
9. TA focus. Designated evidence adult: classroom-support adult; lead teacher receives the full response. Record actual source access and prompting; never improve the baseline or mark prompted work independent. Held prompt ladder: page 2.
10. Exit 1–3. 3 min · KEEP. Use one tier and the whole fresh source: both unaltered checks, confidence 1–3 and separate adult prompt record. No other help; use responses for the next lesson. TA: Ensure an attempt in the chosen mode and record actual prompting. Avoid: Never change an answer or supply a clue, answer stem, Word help or organiser during the checks.
11. After teaching. Misconception: _____ Response: _____ Next step: _____ Evaluation: _____
12. Preparation / evidence / cover essentials. PPT; Q1–Q5 strips; book; Word help; blank record; route; Pause card. Educational RE; optional reflection. Protected descriptions; no sacred originals, real flame, harm enactment, compelled forgiveness or personal disclosure. Neutral case, private pass and quiet return. All help closed at Exit. Full care/answers: TA_Brief.pdf / Staff_Answers.pdf. Classroom-support adult captures the exact response, mode, route and prompt; checks, tags and uploads to the evidence app the same day, 14:10–14:30. Lead teacher receives the whole response, names the change back and records the actual next step. R requires receipt and influence. Final three minutes of You Do: pupil-owned response. If pending, reserve 10–15 minutes of the next taught session before new input; do not mark R. KEEP: six stages 5/3/6/8/15/3; source, model, guided example, independent response/review and both Exit checks. Shorten repetition or optional Aspire first. Six-stage timeline (minutes): 00–05; 05–08; 08–14; 14–22; 22–37; 37–40.

Key answers and adult prompt ladder

Arrival key answers. Supported: 1. No. It supported a worthwhile possibility; no later outcome was known.; 2. A trained adult's safety check and repair using the available materials.; 3. No. Outcomes depend on many circumstances; the sources did not establish that blame.; 4. Relevant evidence and reasons, including a possible counterargument. Standard: 1. Available materials supported one bed and the adult check addressed safety; the goal was possible without a guarantee.; 2. It could allow regulation, safety checking and adaptation instead of demanding immediate unsafe action.; 3. It was a sacred narrative with an interpreted meaning; it did not supply evidence of the garden's future outcome.; 4. State it accurately, recognise a real strength, then test it with relevant evidence and a reasoned challenge. Stretch: 1. It needed a feasible action, safety information and practical support. Motivation alone did not establish resources or the outcome.; 2. One repaired bed could preserve a worthwhile gardening aim while adapting scale to resources and safety.; 3. A source can support meaning or motivation for some people. A guarantee says an outcome must occur; that is not established by the source or case.; 4. It states the conditions or limits that affect the conclusion and explains them with evidence, rather than only saying "it depends".

Exit Ticket key answers. Supported: 1. The participant cannot access the spoken format; the written format provides the same steps and is available.; 2. Different formats can provide access to the same task; a consistent rule can be to meet justified access needs. Standard: 1. Identical spoken delivery excludes this participant; written steps change access format rather than the task information, so difference is not inherently favouritism.; 2. Keep consistent criteria and the same relevant information while allowing evidenced access adjustments; the claim that any difference is unfair is too broad. Stretch: 1. The argument assumes sameness ensures access, contradicted by the stated barrier and available equivalent written steps.; 2. A supported judgement allows the written version on consistent access grounds. A genuinely unknown resource or content-equivalence constraint could need checking; do not invent it as a fact here.

Answer reference. Staff_Answers.pdf: Arrival and Exit by tier, then guided and route answers. Check the accepted source before accepting equivalent answers.

Prompt ladder for adults. 1. Point to the relevant place / instruction. 2. Ask one short question: "What is it asking you to find?" 3. Rephrase the instruction in simpler language. 4. Provide a scaffold or limited choice. 5. Model the first step only, then return the task to the pupil.
