SCI-BUILD-A1-W08-P2 · Date _____

Use: Show what you know about body science | BUILD Science

Today I can… ☐ Show one idea about bones. Show how we move. Show what food does and where it comes from. ☐ Use because to join two science ideas. ☐ Use a model or the evidence. Show how it backs up what you say.

Feedback: ☐ VF ☐ WS ☐ I ☐ NS ☐ E ☐ R ☐ [//] ☐ [?]

_____

Word page · Skeletons and classification

Skeletons and classification · skeleton

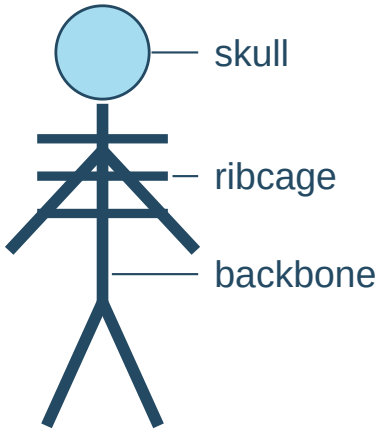

the bones in your body. They hold you up and keep parts safe

vertebrate

an animal. It has a backbone inside its body

Bones hold us up and keep parts safe. They help us move. Dog: backbone. Earthworm: no backbone.

Blue shapes show bones.

_____

Word page · A muscle pair

A muscle pair · joint

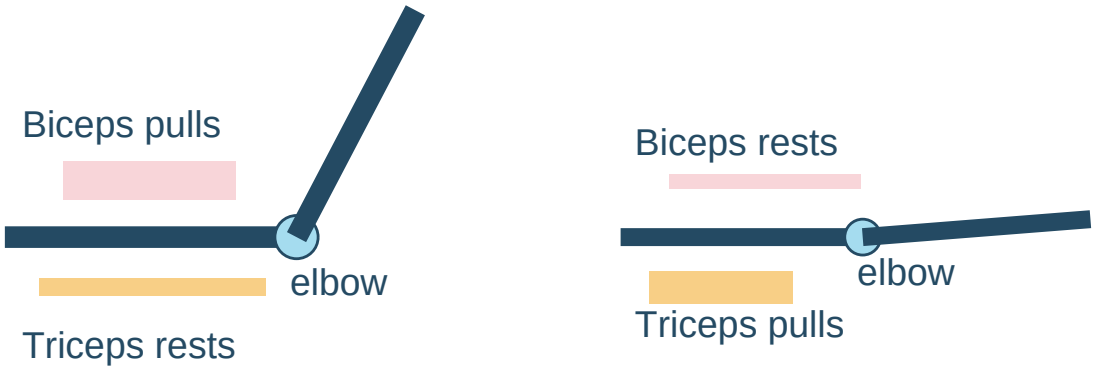

a place where bones meet and move

contract

a muscle gets shorter and pulls

Bend the arm. The biceps contracts: it gets short and pulls the bone. The triceps relaxes: it lets go. To make the arm straight, they swap jobs. Both muscles pull. They do not push. This simple model leaves some parts out.

Blue shows bones. Pink and orange show the two muscles.

_____

Word page · Food sources and transfer

Food sources and transfer · nutrient

a part of food that helps your body grow or work

food chain

a path showing what eats what

Each arrow points from food to eater. Food and energy move this way. Grass makes food using light.

Green boxes show the plants and animals in the chain.
