Teacher and cover planner

Test and evaluate my model

Monday 23–Friday 27 November 2026 · one 40-minute lesson

Teaching date: _____ Teacher: _____

Exact scheme cells

LAUNCH Weekly - Autumn!C239
CONSTRUCTION: test and evaluate what I made.

LAUNCH - Autumn!D33
Construction & making: safe structures

LAUNCH - Autumn!I33
[AWARD] [QUAL] (Level 1/2); [AWARD] [QUAL] '[QUAL]', '[QUAL]'.

LAUNCH - Autumn!J33
F: safe-working observation. S: constructed product + evaluation (data drop).

The source assessment is retained. This lesson contributes evidence; it does not by itself complete an award. Public award labels are masked only.

Purpose and success checks

What does a fair test tell me about my model?

I can follow a safe test plan. I can record what I actually observe. I can use a result to suggest an improvement.

LAUNCH-DT-W4-E1: An actual test record for up to three identical light blocks, including stop/not-tried entries, observed results and a justified proposed improvement.

Before pupils arrive

Retrieve each Week 3 model and work reference. Staff trial a stable setup with equal-height supports, a 10 cm gap and a tray. Select three identical large light foam/plastic blocks that can sit safely at the centre; set a lower cap if local risk controls require. Have rulers, a five-second timer and evidence sheets. Provide a model for a missed build, clearly labelled staff-made.

Offer processing time, a quiet start and the usual communication support. Capture each learner’s own work. Read the Staff Answers before teaching.

Calendar and continuity

Monday 23–Friday 27 November 2026. One lesson per week on this line. No day or clock slot is inferred; staff enter the actual date above. Continue the accepted card model sequence.

Forty minute sequence

Slide	Min	Action
1	0	Open title and big question before timing.
2	4	Private check-in, quiet start and support choice.
3	2	Read the diagram; hear one clue or question.
4	0	Read the exact objective and success checks.
5	5	Model the six lines; explain the reason for each.
6	5	Ask for a hinge answer and reason; reteach if needed.
7	12	Use the six cards and the Supported/Independent/Aspire routes.
8	6	Complete the individual two-page evidence record.
9	4	Check ownership, support, response and next step.
10	2	Take a short quiet exit response.
11	0	Use the vocabulary mat throughout.
12	0	Hidden reference for adults.

Hinge and reteach

B. Stop the test and let the adult remove the load safely. Record the slip as an observation. A ignores the stop rule; C changes the test and conceals the result. Re-model the stop signal with an empty setup, not by deliberately breaking a model.

Access and practice

Supported: place one block with help. Independent: test, observe and record each step. Aspire: explain how to make a comparison fair.

Demonstrate on a separate example. Pupils test their own model with support, one load at a time up to three blocks. Record observations as they happen. If a staff-made substitute is used, mark whose model it is. The learner can still evidence testing, but not claim the earlier building work.

Begin evidence during practice and finish during capture. Accept speech, pointing, drawing, writing or usual AAC. Scribe exact words without supplying the assessed reason. No forced pair work or public performance.

Safe teaching evidence and learner voice

Boundaries

Staff approve and supervise each setup. Use a stable low desk/tray; keep hands clear of the loaded model. No body-weight tests, heavy loads or deliberate collapse. Stop for slipping, splitting or sharp bending; adult removes the blocks. If conditions are unsuitable, record not tested and evaluate the setup instead. No invented result for an absent or stopped test.

Assessment and feedback

Record actual block counts and observations at each attempted load. Leave later loads as not tried after a stop. Controls: same model, 10 cm support gap, block type, central loading and five-second observation. An evaluation links a real observation to a reasoned change, for example neater folds or a secure agreed join. Three blocks is a classroom cap, not a strength rating. No result is prefilled.

Retain actual work, response mode and support. Use VF · WS · I · NS+ (Yellow Box) · // (self-edit) · ? (read back) · R (responded) · E (evidence in the school's evidence record). R requires Voice, Audience, an NS+ prompt and the learner’s response in their own colour. Record E only after evidence is banked. Blank forms and adult models are not completed learner evidence.

Lundy moments

Space: calm, accessible participation. Voice: a choice, reason or help request. Audience: the adult listens or reads and replies. Influence: record the support or next-step change made in response.

Speaking listening and writing

Give a clear observation, listen to the stop instruction and explain an improvement using a result. The receiving teacher maps authentic responses to their own portfolio; no communication criteria are assigned here.

Reflection and provenance

Next teaching need: _____
Learner request and change made: _____
