

# Describe how one cell makes two through mitosis

I am learning to describe how one cell makes two through mitosis.

## Picture idea

A simple three-frame cell outline showing copied chromosomes separated into two cells.  
Staff can add a licensed or original image here.

## Key words · words and symbols

🕒 cell

WIDGET SYMBOL SLOT

🕒 chromosome

WIDGET SYMBOL SLOT

🕒 mitosis

WIDGET SYMBOL SLOT

🕒 daughter cell

WIDGET SYMBOL SLOT

## Can you find...?

1. What is copied before division?
2. What does mitosis separate?
3. What is produced?

How I'll know I've got it: I can find all three answers and use one source detail to explain a choice.

# Link cell division, growth and stem-cell roles

I am learning to link cell division, growth and stem-cell roles.

## Picture idea

A branching cell diagram: one stem cell, self-renewal arrow and a specialised-cell arrow.  
Staff can add a licensed or original image here.

## Key words · words and symbols

growth

WIDGET SYMBOL SLOT

stem cell

WIDGET SYMBOL SLOT

specialise

WIDGET SYMBOL SLOT

division

WIDGET SYMBOL SLOT

## Can you find...?

1. How does division help growth?
2. What can a stem cell do?
3. What does specialised mean?

How I'll know I've got it: I can find all three answers and use one source detail to explain a choice.

# Compare a scientific benefit and an ethical question about stem cells

I am learning to compare a scientific benefit and an ethical question about stem cells.

## Picture idea

Two balanced cards: possible repair research and consent/source of cells.  
Staff can add a licensed or original image here.

## Key words · words and symbols

 **stem cell**

WIDGET SYMBOL SLOT

 **benefit**

WIDGET SYMBOL SLOT

 **ethics**

WIDGET SYMBOL SLOT

 **evidence**

WIDGET SYMBOL SLOT

## Can you find...?

1. What is one possible scientific aim?
2. What is one ethical question?
3. What must a claim of a cure avoid?

How I'll know I've got it: I can find all three answers and use one source detail to explain a choice.

# Show how dna, genes and chromosomes are related

I am learning to show how DNA, genes and chromosomes are related.

## Picture idea

Nested labelled diagram: cell nucleus, chromosome, DNA strand, short gene section.

Staff can add a licensed or original image here.

## Key words · words and symbols

🕒 DNA

WIDGET SYMBOL SLOT

🕒 gene

WIDGET SYMBOL SLOT

🕒 chromosome

WIDGET SYMBOL SLOT

🕒 nucleus

WIDGET SYMBOL SLOT

## Can you find...?

1. Where are chromosomes shown?
2. What is a chromosome made of?
3. What is a gene?

How I'll know I've got it: I can find all three answers and use one source detail to explain a choice.

# Complete a simple genetic cross with two allele letters

I am learning to complete a simple genetic cross with two allele letters.

## Picture idea

A blank 2x2 Punnett square with A and a on both parents' side labels.  
Staff can add a licensed or original image here.

## Key words · words and symbols

allele

WIDGET SYMBOL SLOT

genotype

WIDGET SYMBOL SLOT

cross

WIDGET SYMBOL SLOT

probability

WIDGET SYMBOL SLOT

## Can you find...?

1. What does each parent contribute?
2. What do the boxes combine?
3. What does a 1-in-4 box mean?

How I'll know I've got it: I can find all three answers and use one source detail to explain a choice.

# Research a genetic condition carefully and name the source

I am learning to research a genetic condition carefully and name the source.

## Picture idea

A neutral research card with “gene”, “effect”, “variation” and “source checked” fields; no patient photograph.

Staff can add a licensed or original image here.

## Key words · words and symbols

 **condition**

WIDGET SYMBOL SLOT

 **gene**

WIDGET SYMBOL SLOT

 **variation**

WIDGET SYMBOL SLOT

 **source**

WIDGET SYMBOL SLOT

## Can you find...?

1. What can a condition be linked to?
2. Can people's experiences vary?
3. What makes a research claim checkable?

How I'll know I've got it: I can find all three answers and use one source detail to explain a choice.

# Review cell division and inheritance using source evidence

I am learning to review cell division and inheritance using source evidence.

## Picture idea

A two-panel review: copied chromosomes in mitosis and an A/a cross, clearly separate.  
Staff can add a licensed or original image here.

## Key words · words and symbols

 **mitosis**

WIDGIT SYMBOL SLOT

 **DNA**

WIDGIT SYMBOL SLOT

 **allele**

WIDGIT SYMBOL SLOT

 **evidence**

WIDGIT SYMBOL SLOT

## Can you find...?

1. What does mitosis distribute?
2. What is an allele?
3. What must a cross state first?

How I'll know I've got it: I can find all three answers and use one source detail to explain a choice.
