Arts encounter planning notes

No visit, visitor or performance is confirmed by this pack. Reading a description and making a response are real classroom arts activities, but they do not establish a live encounter or visit.

If a real encounter is arranged later

Record the actual artist or organisation, date, what pupils actively did, and each pupil's response. Apply the owner's privacy and publication rules. Do not prefill an event, witness statement or pupil view.

Classroom option now

Use the descriptions and original teacher models. Ask pupils what they noticed and how a method could inform an original response. Record this honestly as description-based exploration.

Materials free option

Read a description aloud and invite a spoken or silent response. An adult can record the sequence and confirmed pupil view. A pupil can pass on public sharing.

What good looks like

A dated record distinguishes observed action, the pupil's words and any later event awaiting confirmation. Staff retain honest gaps instead of creating missing evidence.
