Teaching assistant brief

GROW Spring 1 Week 2 Wednesday 13 January 2027 P5 Year A Explore

I can practise the same technique and compare my real before and after tests.

Arrival 0-3; Starter 3-6; I do 6-12; We do 12-18; Create 18-32; Review 32-37; Exit 37-40 minutes. Tidy in the final two minutes of Review.

I do

Point to the same chosen feature in both model tests. Do not replace the pupil's baseline.

We do

Give feedback about gaps or pace. Accept an unchanged result. Return the choice of next step to the pupil.

Create

Retain an actual matching after test. Record cue, changed access or support honestly. Scribe exact words and read them back.

Materials free access

Observe the same four silent actions or pupil-directed adult sequence using the retained cue. Keep a dated witness note of before, after, support and the pupil's explanation. No device is needed.

Log and review

Scribe exact pupil words. Read them back and allow correction. Keep observed actions separate from the pupil's intended feeling.

Prompt ladder: 1. Point to the place or instruction. 2. Ask a short question. 3. Rephrase the instruction. 4. Provide a scaffold or choice. 5. Model the first step only, then return the task.

Plan in any language. Use a silent seated route and private sharing when helpful.

Evidence

Retain actual work or a precise observation plus the log. Keep optional stretch labelled separately. Do not infer a completed award or live encounter.
