Record actual use and adult next-step prompts separately from access. Learner keeps chosen routine card and own Did it help? choice: Yes/A bit/No/Not sure, all valid.

Forty minutes

0–12	**Calm start, choices, breath model and one-minute reset.**
12–25	Count/move teaching, private hinge, choice/plan and reset.
25–40	Private practice/check, feedback and private exit.

Access and private help

All seven Level 2 banks/starters/models on every route. No public questions, personal trigger, induced feeling or compulsory practice. Quiet adult timer is access, not breath pacing or next-step cue. Scribe records own response but cannot replace actual use. Trusted adult/school route; pass/stop/switch/return. Plan in any language.

Where this leads

This helps me choose an agreed routine, use my normal aids and give honest feedback about what helped.
