Who can help with change

Wednesday 3 February 2027 · P1 · 40 minutes · Year A

BUILD · three to four learners · Spring 1 Week 5 · formative

Theme Resilience & Change. Six-week term; Week 6 assessing.

Thread tags: SMSC S/So (M/C none); British Values IL/MR (D/RL/T none).

Exact outcome

Identify who helps me through change.

Source: BUILD Weekly Spring row 68, as supplied in the owner brief. The workbook was not reopened; no independent cell check is claimed.

What this lesson teaches

Identify a possible helper by role and choose how that adult could help with an invented change. A home/school/community circle gives examples of support. A small role/help sort develops the link between a role and a useful kind of help. The private My circle card stays with the pupil and is not evidence.

Prepare

Books; circle guide on Support Cards page 1; role/help sort on page 2; invented scene/model on page 3; private My circle card on page 4; seven aid sets on pages 5–6; vocabulary and private staff work note. Confirm usual communication, reading and physical access. Agree safe home/school help routes. No personal change or support-circle questions.

Where this leads

This helps me find safe help when I learn a new task or do a job.

Forty minute sequence

Chunk	Minutes	Teaching
Chunk 1	0–12	3 min story; 4 min support roles; 4 min model/check; 1 min reset.
Chunk 2	12–25	5 min sort; 3 min private hinge; 4 min who/how plan; 1 min reset.
Chunk 3	25–40	8 min story choices/check; 3 min private card; 2 min NS/reply; 2 min exit.

Chunks last 12, 13 and 15 minutes. Two one-minute resets are inside the 40 minutes. Reduce repetitions for access. Pass, observer and supported return remain available.

Teaching and response routes

Chunk 1

0–3: read the calm new-class-routine story; ask which role could help. 3–7: use the home/school/community guide. Roles are examples, not proof that an adult is trusted. 7–11: model a helper and relevant help, then privately check one selection. 11–12: quiet reset with usual access.

Chunk 2

12–17: sort four roles and four kinds of help. Read cards aloud. Accept more than one sensible safe match; cards do not define fixed job limits. 17–20: main hinge A and parallel B. 20–24: choose a helper role and plan how they could help the invented pupil. 24–25: quiet reset.

Chunk 3

25–33: check individual who/how choices for the invented change, with banks/starters/models and usual aids. 33–36: offer optional private My circle completion, only with agreed support; pupil keeps it. 36–38: set one next step and invite a response. 38–40: private story exit. Do not collect private-card content.

Supported

Keep all Level 2 aids. Teach one match, then offer two role/help choices and return the choice to the pupil. Reduced repetitions and faithful scribe/pointing available. Record content prompts.

Independent

Keep all Level 2 aids and usual access. After a general cue, learner chooses a suitable role and how they could help the invented pupil. Log next-step content prompts separately.

Aspire

Keep all Level 2 aids. Suggest another safe helper or a second kind of help if the first adult is busy. A plausible alternative context is welcome. Extra writing and personal disclosure are not required.

Worked example and fade

The pupil could ask a teaching assistant to show the next step. First show the helper and kind of help. Then leave the helper choice to the pupil while the bank, starter and visible model remain. Next ask the pupil to choose how that adult could help. Fade content prompts only. Keep all access aids in view. Record supported teaching and later chosen answers separately.

Scribing and communication access

Identification may be shown by pointing, selecting, drawing, words or usual aid. A faithful scribe or TA can voice the pupil’s exact choice, read it back and permit correction. Record this access separately from adult-generated answers or next-step content prompts. There is no independent spoken-performance test.

TA focus

I do: model role plus help. We do: read cards and accept safe alternative fits. Independent: check the fictional choices in usual mode. Keep My circle optional, private and outside evidence. Route any concern through safeguarding.

Aids for each task

Level 2 word bank, sentence starter and visible model stay on every task and all routes. These seven sets also appear on Support Cards pages 5–6.

Story starter

Words: pupil, new, step, help

Start: The pupil could ask ... .

Model: The pupil could ask a teacher.

Model check

Words: adult, role, show, step

Start: They could help by ... .

Model: A teaching assistant could show the next step.

Guided sort

Words: home, school, club, help

Start: This role could ... .

Model: A parent or carer could help get kit ready.

Private hinge

Words: role, help, next, adult

Start: The pupil could choose ... .

Model: The pupil could choose a teacher to show the steps.

Choose and plan

Words: teacher, helper, show, try

Start: They could ask ... to ... .

Model: They could ask a teaching assistant to show the next step.

Story choice and private card

Words: role, help, blank, private

Start: In the story, ... could help by ... .

Model: In the story, a teacher could help by showing the steps.

Feedback and exit

Words: busy, next, help, adult

Start: Another helper could be ... .

Model: Another helper could be a teaching assistant.

Prompt ladder

1 Point to the place or instruction. 2 Ask a short question privately. 3 Rephrase. 4 Provide a scaffold or choice. 5 Model the first step only, then return the task. Allow processing time. Log content prompts during observed choices separately from normal access.

Checks and planned access

Success criteria

Choose a safe helper role for the story.

Show a kind of help that fits.

Show another safe way to get help if needed.

Check after the model

Select the model helper and kind of help in usual mode. Re-model if needed. Use the story only. A pass is not a wrong answer.

Main hinge and decision rule

Main A fits: ask a teacher to show the steps. B gives help for a different task only. Check privately in usual mode. Accept relevant safe alternatives. If wrong or unclear, re-model, offer two choices and use the parallel. A pass remains unobserved.

Parallel hinge

To try the first step, B fits: ask a teaching assistant to try it with the pupil. A hides the steps. Recheck privately with normal aids.

Cognition and Learning

One mild scene, small card set, read-aloud and explicit modelling; reduce to two choices, fade adult content prompts while retaining aids. Repeat a short relevant match.

Communication and Interaction

Wait time, pointing or usual aid, exact scribe/voicing and readback. Do not require eye contact or speech. Confirm the pupil's own helper and help choices.

SEMH

Predictable story-only class work; no public personal questions or comparison of support circles. Pass, observer option, quiet pause and supported return. Do not ask pupils to explain a pass.

Sensory/Physical

Usual safe seating, accessible print, reachable sort cards and normal communication aids; quiet reset without sudden sound or forced movement.

EAL

Plan in any language. Explain role, help, change and community using short examples; allow usual language support and exact selected wording.

Optional private story checks

Use fictional checks only; allow pointing or pass. F: Which role could help the story pupil? M: What could that adult do to help? H: Which other safe helper could fit if that adult is busy?

Misconceptions

Each role can offer more than one kind of help; accept sensible safe matches. A role title does not prove trust or oblige a pupil to fill every circle area. Any space may stay blank. Give private support without pressing.

Lesson resource · CC BY-NC-SA 4.0: free for classroom use, share and adapt with credit, no resale

Private support and learning evidence

Safeguarding and the private card

If a pupil cannot identify a trusted adult or support in any area, support them privately and do not press them. Offer a familiar school role and help make contact through the school route; accept any blank space, a blank card or pass. Any disclosure goes to the safeguarding lead through school procedure. Listen calmly, reassure, do not probe or promise secrecy. Follow urgent school procedures where needed. Do not write disclosure details in this pack, the private card, a book task or shared learning evidence. Do not read private cards aloud, collect or photograph them for assessment. Staff may support completion only with pupil agreement; the pupil keeps the card.

Safe help routes

Use adults the pupil knows and trusts, including a familiar community role where appropriate. Do not instruct pupils to approach an unfamiliar adult alone. Use agreed home/school routes for help. A role title is a possible starting point, not a guarantee of safe support. No pupil has to endorse any adult or fill all three areas. If an adult is busy or the first response does not help, support asking another trusted adult.

Practice and access

Use the invented change only. Keep cards, banks, starters, models and usual aids. The objective is identifying helper and help, not speech or personal disclosure. Record exact choices, access and adult content prompts. Pass/observer is valid; do not infer real-life help-seeking.

Evidence to keep

Use Evidence Sheet for anonymous/session learning notes: helper role and relevant kind of help chosen for the invented change; an alternative safe helper if offered; usual mode, access and adult content prompts; one NS and learner response. Do not record personal roles from My circle, names, relationships or worries. Observed with content prompts, observed without next-step content prompts and learning not observed remain distinct. Identification can be shown by selecting or pointing; no independent speech or real-life help-seeking claim.

Observation states

Chose role and relevant help without adult next-step content prompts; Chose role and help with adult content prompts; Learning not observed this time. A faithful scribe records the learner’s exact choice. An adult-chosen answer is supported teaching, not the learner’s own selection.

Feedback and marking

VF verbal feedback; WS worked with support; I independent; NS next step in green; // self-edit; ? read this back to me; E actual evidence banked; R responded. R only when Voice and Audience are present, one NS is set and the pupil responds in the same colour, on the same page or usual mode. Offer to the Communication portfolio; staff confirm mapping.

Book first

Use books or normal aids for invented matches and who/how choices. The private My circle card is an intentional fill-in exception. No personal names, private-card roles or real concerns in class work, photographs or shared evidence. Plan in any language.

Continuity and scope

Week 5 is formative; Week 6 is assessing. Only Week 5 is authored here. The owner supplies row 68 and the exact outcome; identifying source labels are rendered generically.
