Purpose and success checks

What does my work show, and what should I learn next?

I can link a skill to my own work. I can identify help used and an evidence gap. I can choose a next skill and bank checked work.

LAUNCH-DT-W7-E1: An individual D&T portfolio review linking planning, making, testing, evaluation and presentation to authentic work, with ownership/support, gaps, next target and actual banking record.

Before pupils arrive

Gather authentic W2–W6 records. Provide the checklist and usual communication support. Staff have the approved evidence-storage route ready; do not create a public folder or login task.

Offer processing time, a quiet start and the usual communication support. Capture each learner’s own work. Read the Staff Answers before teaching.

Calendar and continuity

Monday 14–Friday 18 December 2026. One lesson per week on this line. No teaching day or clock slot is inferred.

Staff enter the actual teaching date above. Continue the accepted prior-week evidence and support routines.

Forty minute sequence

Slide	Min	Action
1	0	Open title and big question before timing.
2	4	Private check-in, quiet start and support choice.
3	2	Read the diagram; hear one clue or question.
4	0	Read the displayed objective; explain the source wording and calendar note.
5	5	Model the six lines; explain the reason for each.
6	5	Ask for a hinge answer and reason; reteach if needed.
7	12	Use the six cards and the Supported/Independent/Aspire routes.
8	6	Complete the individual two-page evidence record.
9	4	Check ownership, support, response and next step.
10	2	Take a short quiet exit response.
11	0	Use the vocabulary mat throughout.
12	0	Hidden reference for adults.

Hinge and reteach

C. A model alone does not show a recorded test or evaluation. Check for an authentic existing record; if none exists, record the gap and plan a suitable later opportunity. Do not invent or backdate evidence. Reteach by separating a pupil record from an adult model.

Access and practice

Supported: match two records with staff. Independent: review each skill and help used. Aspire: explain a limit and a precise next step.

Model ownership checking on an adult example. Review the learner’s actual records one at a time; record support and gaps. Agree one skill target, receive the learner response and bank only checked items.

Begin evidence during practice and finish during capture. Accept speech, pointing, drawing, writing or usual AAC. Scribe exact words without supplying the assessed reason. No forced pair work or public performance.

Safe teaching evidence and learner voice

Boundaries

No fabricated, copied or backdated learner evidence. Keep photos and work references in approved staff storage. No new build or load test is required. Any gap leads to a future support plan, not a false completion tick.

Assessment and feedback

Check each claimed skill against actual work and who did it. Keep honest not-yet or missing entries. Source award labels are preserved in school staff mapping and masked in Public; no unit criteria, registration or completion is inferred. Bank only real learner evidence and record actual location/status.

Retain actual work, response mode and support. Use VF · WS · I · NS+ · // (self-edit) · ? (read back) · R (responded) · E (evidence in the school's evidence record). R requires Voice, Audience, an NS+ prompt and the learner’s response in the same colour, on the same page or usual mode. Record E only after evidence is banked. Blank forms and adult models are not completed learner evidence.

Lundy moments

Space: calm, accessible participation. Voice: a choice, reason or help request. Audience: the adult listens or reads and replies. Influence: record the support or next-step change made in response.

Speaking listening and writing

Explain a strength with evidence, acknowledge support and state a next-step target. The receiving teacher maps authentic responses to their own portfolio; no communication criteria are assigned here.
