Final task step cards

Tuesday 15 December 2026 | P6 | 40 minutes

Today I can

I can use my ICT skills to make and check a clear kit update.

1 Choose and protect

Read the two source cards. Choose the source for this kit and give a reason. Use only made-up kit facts. Keep personal details out of the files.

2 Work out and chart

Check the starter inputs. Use formulas for each row and the whole total. Make a chart of the three items, with clear labels and points. Leave the whole total out.

3 Explain in a document

Use a title, a heading and a short paragraph. Explain the source, a formula, the chart and one access choice. The frame is on the word page.

4 Update one slide

Use a copy of an earlier slide or a blank slide. Add the new chart, a useful title and a short comparison. Use clear text. Give the chart a useful description and check its reading order.

5 Save and gather

Save and reopen the task files. Use the evidence sheet to locate outputs from all seven weeks. Record any missing work and the help used.

Private responses

Plan in your book or type privately. Point or speak quietly to an adult. No reading aloud or live talk is needed.
