The aim

I can use my ICT skills to make and check a clear kit update.

Steps

1. Finish and check the core task first.
2. In a v2 copy, change paper packs from 3 to 4.
3. Check how the row total, whole total and chart change.
4. Revise the explanation and slide so they match the v2 values.
5. Explain one limit of the data and one access choice.
6. Keep v1 and v2. Record what you checked and any support.
