# Teacher and cover plan

### 1. Outcome

I am learning to test a rock in two ways.

Weekly line C41: Test rocks for hardness and whether they let water through.

### 2. Arrival

Point to a safe rock.

### 3. Starter

Think back. Say, sign or point. Use the three source questions and confirm actual taught coverage.

### 4. I do

Watch two safe tests. Model the mark and water checks; ask whether a wet top proves water went through.

### 5. We do

Test two safe rocks. Hand over the missing observation for B. Sort the three source clues.

### 6. You do

Show each test. Record what you saw.

### 7. Routes

Supported, Independent, Aspire and Go deeper retain source F/M/H tasks. Use the route sheets.

### 8. Access

No cold calling. A learner may pass. Stable tray, large cards and no forced touch. Use the agreed response mode.

### 9. TA role

Use the held five-step prompt ladder. Record adult prompting separately: _____

### 10. Exit

Tell an adult what you saw. Choose the next start from the response.

### 11. Evaluation

# Teacher and cover plan · kit and timing

### 12. Kit safety evidence and timing

Kit: two safe rocks, staff-held blunt tool, dropper, dry tray and towel. Guess first, test a mark, add three drops, then inspect top, edge and below. Record the route actually seen.

Risk: tools or rough rocks may hurt skin; spills may be slippery. Staff use the tool. Keep drops in the tray. No dust or tasting; wash hands. Check school risk assessment and [SYS] guidance.

Evidence: preserve the learner's own result table or observation, review edit and exit response. Use code SCI-BUILD-A2-W03. Prompt recording stays separate.

| Time | Stage |
|---|---|
| 0–5 min | Arrival |
| 5–8 min | Starter |
| 8–13 min | I do |
| 13–20 min | We do · KEEP |
| 20–25 min | We do 2 · KEEP |
| 25–33 min | Independent · KEEP |
| 33–37 min | Review and improve |
| 37–40 min | Exit · KEEP |

Total 40 minutes. Quiet-minute resets sit within We do 2, Review and Exit. About 3 in 4 right: move on; otherwise re-model and ask the parallel hinge. Check every learner's explanation.

One BUILD page and pack cover both periods. Keep this lesson id. Arrival and Exit are the common set as on the source page.

If behind, preserve safety and both checks with the learner's own result. Shorten repeated rehearsal only after a secure hinge. Record any change, its reason and coverage impact.

Pass on actual understanding, unresolved hinge errors, deepest prompt and independent response for Week 4's start.
