# Arrival and starter

I can name what we change.

I can name what stays the same.

I can record what I see.

See two rocks and a dropper.

Think back. Say, sign or point.

1. Name one raw and one made item.
2. Why can slate suit a roof?
3. How can food help a body?

You may point, sign, say or write your first ideas.

# Independent · Supported

I can name what we change.

I can name what stays the same.

I can record what I see.

Test two rocks. Record what you see.

Say it first. You can plan in any language.

Point, sign, speak, draw, type, write, use a scribe or a staff-captured photo.

Point to what stays the same.

Say: I keep ____ the same.

| Rock | Drops | What happened? |
|---|---|---|
| A | ____ | _____ |
| B | ____ | _____ |

Choose one route within the full 8 minutes. Keep your own response.

# Practical model · safe steps and record

I can name what we change.

I can name what stays the same.

I can record what I see.

Guess first: Will the drops act the same?

Kit: Two like-size safe rocks · Dropper · Tray

Guess first.

Add three drops to A. Wait one count.

Do the same on B.

Record and compare.

Risk: Rock edges may scratch skin; water may spill.

Safe: Use blunt rocks in a tray. Wipe spills. Do not taste; wash hands after.

| Rock | Drops | What happened? |
|---|---|---|
| | | |

Use the kit your teacher has checked. A picture or adult-led model is a valid route.

# Review and exit

I can name what we change.

I can name what stays the same.

I can record what I see.

Check two rows. Hear a next step.

Hear feedback (VF) and one next step (NS(+)). Edit one part (//).

Take one quiet minute to reset.

Say what stayed the same.

Read it back: I am learning to keep a rock test the same each time.

My feedback was… I showed…

Next I need to… try one small fix.

How I know: I can name what we change. I can name what stays the same. I can record what I see.

Tell your teacher. They will pick our next start.

Take one quiet minute before the next lesson.
