Teacher and cover plan

1. Outcome

I am learning to show a fact about bodies, food and rocks.

Weekly line C45: Review and evidence learning on skeletons, nutrition & rocks ([QUAL] / [QUAL]).

2. Arrival

Use the source retrieval and a predictable start; check actual prior coverage.

3. Starter

Keep each first idea visible. Accept point, sign, speech or an exact scribe.

4. I do

Model the science and the source words. Keep the worked example and its limit.

5. We do

Hear every learner’s own choice and reason. Re-model for those unsure; secure learners try a fresh check.

6. You do

Show work you did about body, food or rock.

7. Routes

Supported / Independent / Aspire are choices of access and challenge within one task budget.

8. Access

No cold calling. Learner may pass; allow a quiet pause and exact scribing.

9. TA role

Use the five-step prompt ladder. Record support separately and fade it.

10. Exit

Hear each learner’s response and use it to choose the next teaching step.

11. Evaluation

Date taught _____ Changes, reasons and coverage _____

Teacher and cover plan · kit and timing

12. Kit, safety, evidence and timing

For three to four learners: two tray sets of checked blunt bone/rock models or picture cards, two matching fact-card sets, and four individual record sheets with pencils. Four work as two pairs; three as one trio. Rotate explainer, clue-checker and source-checker. Keep one record per learner.

Follow the local risk assessment. Keep blunt models and samples on trays. No tasting, scraping or forced touch. Wash hands after shared kit. Use pictures or adult handling when needed. No water test is needed for the hinge.

Time	Stage
0–5 min	Arrival
5–8 min	Starter
8–13 min	I do
13–20 min	We do
20–25 min	We do 2
25–33 min	Independent
33–37 min	Review
37–40 min	Exit

Total 40 minutes. Quiet resets and feedback sit within the stated blocks. Alternate routes do not add time. Each learner keeps their own evidence.

Evidence: first response, result or labelled explanation, actual feedback, pupil response and Exit. Use SCI-BUILD-A2-W07. Record adult prompting separately.

One BUILD page and pack cover both periods. Record any change, reason and coverage impact. Preserve the core task and hand over checked understanding.

Use this same 40-minute structure in both BUILD periods. First rehearse and locate real work; then revisit a different body, food or rock claim and retain each learner’s new response. One page and pack cover the week.
