Teacher and cover planner

Online privacy kindness and help

Wednesday 27 January 2027 · P3 · 40 minutes · Year A

GROW PSHE · Spring 1 Week 4 · up to five learners · formative

Theme Resilience & Change. Six week term; Week 6 assessing.

Thread tags: SMSC S/So; British Values IL/MR. Other tags not claimed.

Exact outcome

Stay safe online; recognise risks and my digital footprint (Safer Internet Day).

GROW Weekly - Spring B67 and C67. Exact scheme outcome checked. Owner supplies the date, period and group. This is a formative lesson.

Purpose

Spot a privacy risk. Explain that online posts can be copied and leave a trace. Give a kind, safer step with a reason. Say how to get help. All cases are invented. Learn with offline cards, not live accounts. Do not request personal examples or show real posts.

Cover preparation

Read Staff Answers first. Prepare Support Cards, the glossary, books, usual aids and optional typed Evidence Sheet. Keep pupil work private. Agree the supervised pause route and available adult before teaching. Use the same model and two task choices if the main teacher is absent.

Where this leads

This helps me check what I share, use kind words and ask for support in learning and future work.

Forty minute sequence

Phase	Min	Action
Arrival and starter	5	Settle and show the private help route. Choose a safe action or give a reason.
Input	5	Teach privacy, digital footprint and kind choices.
Model and guided work	7	Read A. Model the safe response. Match a step or improve advice.
Private hinge and choice	5	Use hinge B and parallel A. Choose a task and mode.
Individual task	12	Map B or advice note C. Include a private pledge in this time.
Review	4	Check the response. Give one next step and keep the reply.
Private exit	2	Explain a safe step or correct a myth. Confirm help.

Total 40 minutes. Short quiet pauses and processing time sit inside these phases. Choices B and C share one 12 minute work period; do not teach both as extra tasks.

Teaching and response routes

Starter choices

An invented learner is about to post a note with routine details. Choose keep the details private or share them widely. Or explain why sharing less can help. Keep the response private. No current account or personal experience is needed.

Input and model A

Read A and the visible model on Support Card 1. Show how to remove routine details and ask for consent. Explain that private settings do not stop all copies. Use kind words and ask for help with a reply that causes concern.

Guided choices

Match remove routine details to a privacy step. Or improve the advice Private means no one can copy it. Model that settings can limit who sees a post but do not control all later copies. Check understanding with the story, not a personal account.

Private hinge

Correct B: check details and ask first; copies may still be made. A confuses private with permission. C spreads the content further. D wrongly promises deletion removes all copies. Ask for one reason privately. If unclear, re-model A, then use the parallel check.

Parallel check

An unkind reply appears. A Stop replying and ask a trusted adult for help with report or block tools. B Send it on to more people. Correct A. Forwarding can spread the problem. An adult can help with report or block tools. A pass is unobserved.

Two main choices

At 22–34 minutes choose a privacy and reply map for B or an advice note for C. Both cover risk, footprint, a kind safer step with a reason, and private help. A map needs no polished drawing; a note needs no extra length. Include the optional private pledge within this work time. Learners may switch choice.

Supported

Choose either task. Read one part at a time. Keep the word bank, A model and starters. Offer two safe steps if needed. Record adult answer cues apart from usual access.

Independent

Choose either task. Spot a risk, explain copies and the footprint, give a kind safer step with a reason, and add private help. Normal aids and the visible model stay.

Aspire

Choose either task. Explain a limit of a setting or deletion. Adapt the response if the first adult is busy or a report tool is unclear. No extra disclosure or public talk.

Cover fallback and scope

If display or typing fails, read A and use printed cards with a book, aid or exact scribe. No internet, phone or login is needed. No harmful images or messages are shown. Do not ask a pupil to save, copy or forward concerning content. Adult staff decide how to record a concern through the school route. Week 4 only.

Task aids and access

Starter

Words: private, share

Start: The learner could ... .

Model: Keep routine details private.

Model A

Words: consent, copy

Start: Before posting ... .

Model: Remove routine details and ask for consent.

Private hinge

Words: settings, copies

Start: I choose ... because ... .

Model: B keeps details private. Copies may still be made.

Task B

Words: consent, kind

Start: They could ... .

Model: Do not post another learner without consent.

Task C

Words: footprint, help

Start: A safer note ... .

Model: Leave routine details out and ask an adult if concerned.

Review

Words: reason, check

Start: My next step ... .

Model: Add why copies may remain.

Exit

Words: stop, tell

Start: They can ask ... .

Model: Tell a trusted adult for report help.

Response modes

Books are the first route. Type instead on Evidence Sheet page 2 works for either choice. Point, draw, use an aid or use an exact scribe. Read back quietly and allow correction. Keep usual reading and language aids. Plan in any language. No public questioning.

Prompt ladder

1 Point to the place or instruction. 2 Ask a short private question. 3 Rephrase. 4 Offer a scaffold or choice. 5 Model the first step only, then return the task. Allow time. Log content help apart from normal access.

Evidence and safe teaching

Adaptations

Cognition and Learning: one part at a time and a visible model. Communication and Interaction: short choices, aid and processing time. SEMH: predictable steps, pass, supervised pause and calm task. Sensory and Physical: clear text, comfortable position and usual aids. EAL: teach key words and plan in any language. Colour carries no answer meaning.

TA focus

Input: check privacy and footprint meanings. Guided work: link a step to the risk. Independent work: record the learner response and actual prompts. Acknowledge pause signals and maintain supervision. Do not ask learners to open accounts or find posts.

Questions in private

F: Which detail should the story learner keep private? M: Why might a copy remain? H: What if the report tool is unclear or the first adult is busy? Use stories and usual response modes only.

Evidence judgement

Judge risk knowledge and application of a safe step separately. Secure work identifies a case risk, explains a footprint or copy limit, and gives a kind feasible step with a reason and a help route. Keep partial evidence. A pass is unobserved. Do not grade personal safety, past behaviour or compliance from a fictional task.

Review and feedback

Use the success list or improve Just delete it and the whole problem is gone. Add that copies may remain and a trusted adult can help. Give one precise NS and retain the reply. Exit: explain a safe step in B or C, or correct Private means safe to share anything. Retain first thinking, one next step and the learner reply in the same colour, on the same page or usual mode. VF verbal feedback; WS worked with support; I independent; // self edit; ? read back; E actual work saved. R only after Voice, Audience, one NS and reply. Offer to the Communication portfolio. Staff confirm any mapping.

Private pledge

The pledge is private and stays with the learner. Do not collect, photograph, display or compare it. Use a fictional pledge, leave it blank or pass. No names, account details or personal story are needed. The pledge is a learning choice, not a contract or a promise that harm cannot happen. Assess fictional knowledge without reading it.

Safe help and pause

Ask a trusted adult or school staff in private. Point to HELP, write a request or say Can we talk in private. If one adult is busy or help is not enough, use the route to another. Staff can help use report and block tools. A suitable helpline is another type of support; staff can help find the right route. No personal account is needed in this lesson. Pre agree a discreet pause signal and a known supervised route before the lesson. Staff acknowledge the signal without a public reason. Use the agreed adult support and place. Offer a calm task, a supported return or a private catch up. A learner does not leave alone.

Safeguarding

Any disclosure goes to the safeguarding lead through the school procedure. Listen calmly. Do not probe or promise secrecy. Keep concerns out of shared work and learning records. For an urgent concern, get on site staff help at once.
