Researching the Solar System

Today I can… ☐ I can find a fact on a class source card. ☐ I can name the card that supports my fact. ☐ I can fix a claim that the card does not support.

Teacher and cover plan

1. Outcome
I am learning to… check a source and share a fact about the Solar System.
Weekly line C41: Research and present findings about the Solar System (ICT).

2. Arrival
Choose the body that makes its own light: Sun, Earth or Moon.

3. Starter
Moon shape; day/night cause; what goes round Earth. Check actual taught coverage.

4. I do
Read card B and match Earth's orbit claim. Teach four words and the orbit model. Ask the show-me check.

5. We do
Complete the missing card label and sort three claims. Check the two-option claim and all four hinge options.

6. You do
Share two facts, name each source card and fix a mismatched claim or label.

7. Routes
Supported, Independent and Aspire retain source F/M/H tasks and speaking frames. Go deeper remains open. Common Arrival and Exit repeat across tier files.

8. Access
No cold calling. Pupil may pass. Read inaccessible lines. Accept agreed response modes.

9. TA role
Use the exact five-step ladder. Record adult prompting separately: _____.

10. Exit
Hear a checked fact, matching card and source-label fix. Use this to choose the next example.

11. Evaluation
Delivered: Yes / Partly / No. Adaptations and coverage change: _____.

12. Kit safety evidence and timing

Kit: large prepared source cards and desk mat.

Risk: loose cards could fall onto the floor.

Safe: keep cards on the desk mat and pick up any that fall.

Check local risk assessment and [SYS] guidance. Optional model rehearsal is not a claimed core practical.

Evidence: pupil's fact, matching card label, correction and exit response. Use code SCI-GROW-A2-W03. Keep prompting separate from the pupil's own contribution.
