Teacher and cover plan

1. Outcome

I can carry out a comparative fair test, use repeated distance results for a conclusion and improve the method.

Weekly line C44: Consolidate and revisit key ideas through investigation.

2. Arrival

Use the source retrieval and a predictable start; check actual prior coverage.

3. Starter

Keep each first idea visible. Accept point, sign, speech or an exact scribe.

4. I do

Model the science and the source words. Keep the worked example and its limit.

5. We do

Hear both choices and reasons. Re-model when needed, then use the parallel check.

6. You do

a prediction, six raw results, a pattern, conclusion, method improvement and model limit for each learner

7. Routes

Supported / Independent / Aspire are choices of access and challenge within one task budget.

8. Access

No cold calling. Learner may pass; allow a quiet pause and exact scribing.

9. TA role

Use the five-step prompt ladder. Record support separately and fade it.

10. Exit

Hear each learner’s response and use it to choose the next teaching step.

11. Evaluation

Date taught _____ Changes, reasons and coverage _____

Teacher and cover plan · kit and timing

12. Kit, safety, evidence and timing

Stable low ramp; same rover; smooth and fabric surface conditions; ruler or tape; six-row table; lane markers. Use six-row sheets for each learner. Fixed data provide the same reasoning route when practical work is unavailable.

Use a low stable ramp, one release point and a catch area. Stop if the rover leaves the lane; preserve the note, repair and repeat. Teacher checks the ramp and clear lane. Release without pushing; keep hands, feet and faces away from the moving rover. Follow the local risk assessment. No forced touch or public reading.

Time	Stage
0–3 min	Arrival
3–6 min	Starter
6–10 min	I do
10–14 min	We do
14–17 min	I do 2
17–21 min	We do 2
21–36 min	Independent
36–40 min	Exit

Total 40 minutes. Quiet resets and feedback sit within the stated blocks. Alternate routes do not add time. Each learner keeps their own evidence.

Evidence: first response, result or labelled explanation, actual feedback, pupil response and Exit. Use SCI-GROW-A2-W06-P2. Record adult prompting separately.

Record any change, reason and coverage impact. Preserve the core task and hand over checked understanding.
